Child Abuse And The Criminal Justice System:

Child Abuse and the Criminal Justice System Kimberly A. McCabe,2003 Annotation This book describes physical and behavioral indicators of abuse theoretical explanations of child abuse the characteristics of abusers and responses to child abuse by the criminal justice system BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Special edition* ,1985 Child Abuse, Child Exploitation, and Criminal Justice Responses Daniel G. Murphy, April G. Rasmussen,2020 There are few things in our society that provoke such raw emotions as that of child abuse Most people justifiably so are outraged when they hear of allegations of abuse and their anger is intensified as they learn of what seems to be an inappropriate criminal justice response However the debate on child abuse usually happens through visceral emotions rather than facts Taking emotions out of a child abuse debate is much easier said than done but it is of utmost importance to identify the facts When the reader has a better understanding of the scope of child abuse they can become more objective but still maintain their passion about ways to protect this vulnerable and targeted population *Child Abuse Child Exploitation and Criminal Justice Responses* is unique in that it offers the reader contributing facts based not only through scholarly research but practical experience working in field from this wonderful collaboration of criminal investigator and forensic nurse Thus providing much personal insight and demonstrating how these two areas of expertise can join forces to achieve the objective of working as a team to facilitate safeguarding children The authors also present the research on this complex yet worthy topic by identifying the unique challenges of investigating these offenses while ultimately bringing the perpetrators to justice and presenting the research from various perspectives of child abuse including both national and international issues and responses *Family Violence and Criminal Justice* Brian K. Payne, Randy R. Gainey,2014-09-25 The historical context of family violence is explored as well as the various forms of violence their prevalence in specific stages of life and responses to it made by the criminal justice system and other agencies The linkage among child abuse partner violence and elder abuse is scrutinized and the usefulness of the life course approach is couched in terms of its potential effect on policy implications research methods that recognize the importance of life stages trajectories and transitions and crime causation theories that can be enhanced by it **Handbook of Youth and Justice** Susan O. White,2001-01-31 When approached by Plenum to put together a volume of social science research on the topic of youth and justice I found the interdisciplinary challenge of such a project intriguing Having spent 2 years as Director of the Law and Social Science Program at the National Science Foundation I was well aware of the rich diversity of research that could fit within that topic I also knew that excellent research on youth and justice was coming from different communities of researchers who often were isolated from each other in their respective disciplines as psychologists sociologists criminologists or policy analysts I saw this project as an opportunity to break down some of this isolation by introducing these researchers and their work to each other and to the broader community of social scientists interested in law and justice

There was another gap or set of gaps to be bridged as well. The juvenile justice system and the criminal justice system differ in significant ways and the civil justice system which is a major venue for issues of youth and justice is yet another separate world. Few researchers are likely to know the whole picture. For example, a focus on juvenile justice often ignores the extent to which civil justice proceedings shape the lives of young people through divorce, custody, adoption, family preservation policies, and other actions, and vice versa.

On Trial Billie Wright Dziech, Charles B. Schudson, 1989. This book is the first to examine the experience of child victims, their families who attempt to seek justice in America's courts, offers practical reforms that would bring greater sensitivity to the legal process. Reviewing American legal history, the equivocal treatment of children, sex crimes, Dziech and Schudson explain how current courtroom procedures often fail to acknowledge a child's abilities, needs, how child witnesses are often re-victimized by the legal system that is supposed to help them. They argue that there is no justification for subjecting abused children to a second round of trauma in court. This important book recommends sweeping changes to assure justice for children, their families, those accused of harming them.

Child Sexual Abuse & the Criminal Justice System Christine Jane Eastwood, W. Patton, H. Stacy, 1998.

Child Abuse Kimberly A. McCabe, Daniel G. Murphy, 2016-11-25. The purpose of this book is to attempt to explore child abuse from a contemporary perspective in terms of its multiple elements: victims and criminal justice responses. This text will:

1. begin to address the needs of those studying child abuse from a cultural perspective
2. provide a general profile of today's perpetrators of child abuse as well as conditions that may facilitate the abuse
3. provide information on current modes of child abuse
4. provide discussions on long-term consequences for adult victims of child abuse and
5. provide details in terms of criminal justice responses to child abuse in the United States and internationally.

Victims and the criminal justice system United States. Congress. House. Committee on the Judiciary. Subcommittee on Crime, Terrorism, and Homeland Security, 2006.

The Criminal Justice System: Issues Concerning Child Abuse Ben Mathews, 2009-04.

Child Abuse and the Legal System Inger J. Sagatun, Leonard P. Edwards, 1995. This groundbreaking text examines the legal contexts in which child abuse can be handled, including the criminal, juvenile, domestic relations, and civil courts. The authors focus on the legal rules in each type of proceeding and the ways in which the law has changed to accommodate the special needs of the children in the last fifteen years. Case studies provide examples and help identify the most important issues of child abuse facing the legal system. Child abuse is now a major part of the American legal landscape involving not only the courts but also law enforcement and child protection agencies. This is the first text for classroom use to systematically examine the fate of children in the legal system.

When the Victim Is a Child Debra Whitcomb, 1994-03. Reviews new research on the consequences of child sexual abuse, the capabilities of children as witnesses, and the impact of the court process on child victims. Also analyzes pertinent statutes and case law. 16 charts and tables.

Criminal Justice and the Placement of Abused Children Diane R. Martell, 2005. Child welfare, criminal justice, and law enforcement agencies recognize the importance of coordinated inter-agency practices to

ensure the best outcomes for victims of child maltreatment Martell examines if the separate interventions of the criminal justice system and child welfare system impact each other Specifically she studies the potential for an association between the criminal justice case prosecution and the protective service child placement decisions The results indicate that in some cases criminal justice interventions can help to prevent the need for child removal In addition Martell explains how the presence of child neglect can be an important factor in whether or not a child abuse case is chosen for prosecution

Families, Crime and Criminal Justice Greer Litton Fox, Michael L. Benson, 2000-12-20 Part of Contemporary Perspectives in Family Research series that features work on the frontiers of interdisciplinary research on families and family life This edition reflects the orientation by bringing together empirical research that examines various ways that families intersect with and are affected by crime and the criminal justice system

Unequal Justice Ellen Gray, 1993 There is also considerable age discrimination teenage victims fare far worse in the courts than do younger children Minority defendants are more likely to be convicted In addition there is little consistency in how different counties treat these cases In some a case is likely to last just over a month while in others it can drag on for almost a year In some locations a case may be diverted to psychological treatment and away from prosecution in other locations that option does not exist Unequal Justice is must reading for those involved in child sexual abuse cases The book will be of interest to social workers who handle these cases at the front end but don't always know their outcome once they leave the child welfare system and enter the very different legal system The book will also be of interest to members of the law profession who want a better understanding of how the system operates outside their jurisdiction

The Experiences of Child Complainants of Sexual Abuse in the Criminal Justice System Christine Jane Eastwood, Wendy Patton, 2002 *Child Maltreatment and the Law* Roger J.R. Levesque, 2009-05-08 Dramatic cases of child abuse and neglect are featured with tragic regularity in the news The stories vividly demonstrate both the urgent need for improved child protection services and the unwieldiness and ineffectiveness of the systems charged with the task To complicate matters further the original intent of child welfare policy is becoming increasingly obscured as legal responses to child maltreatment become more complex intrusive and even contradictory Fueled by a consistent narrative and a lucid ethical stance *Child Maltreatment and the Law* analyzes the increasing role legal systems play in family life and traces rapidly evolving legal concepts as they apply to child protection This unique volume helps readers

- 1 Navigate the various layers of legal regulation federal and state involved in child protection and family life
- 2 Identify variations and discrepancies in definitions of maltreatment and legal responses
- 3 Critique the relationships and boundary disputes between the criminal and civil justice systems and agencies dedicated to children's welfare
- 4 Analyze controversies e.g removing children from maltreating families and other prime areas for possible reform

Child Maltreatment and the Law is a must read for psychologists developmentalists sociologists social workers criminologists and researchers focusing on family life as well as policymakers and advocates working within the legal system The book is particularly useful

for courses relating to child welfare law or child abuse and neglect *An Introduction to the Criminal Justice System and Process* Alan Coffey, Edward Eldefonso, Walter Hartinger, 1974 *The Victimization of Children* Janet Mullings, James Marquart, Deborah Hartley, 2012-11-12 Explore current social developments issues and controversies concerning young victims The Victimization of Children Emerging Issues keeps students and practitioners working with young victims on the cutting edge of the latest research developments regarding crimes against children Leading experts from the legal medical and sociological communities explore some of the most urgent issues involving child victims Researchers and practitioners in victim services social work mental health public health and criminal justice will all benefit from this useful resource While numerous books have been written on the topic of child abuse and neglect few delve into the more contemporary issues and problems The Victimization of Children fills a large void in the literature by offering advanced discussions of today's most relevant topics making this book an in depth supplement to generic textbooks Forward thinking and thought provoking this timely resource provides sound research to expand your knowledge base This book provides insights into such contemporary issues as the victimization of youths on the Internet children as victims of war and terrorism spatial patterns of child maltreatment the concentration of child maltreatment within certain geographical areas religion related child abuse the role of health care professionals in response to child victimization children with disabilities abuse neglect and the child welfare system fetal homicide emerging statutory and judicial regulation of third party assaults legal and social issues surrounding closed circuit television testimony of child victims and witnesses juvenile courts and their role in addressing family violence The Victimization of Children provides tables figures and the latest statistics of various aspects of child victimization to complement the experts contributions This book offers new and different responses and interventions to meet the increasingly diverse contexts and situations within which child maltreatment occurs Emerging trends are explored within this book from a cross section of disciplines including law sociology criminal justice psychology and health services
