Kearsley,Philip R. Zelazo,1978 Here is a major new work on human infancy written by one of the country s leading developmental psychologists and two distinguished colleagues At its core is the long awaited report of the authors six year study of infant daycare Important in its own right this experiment becomes the occasion for a wide ranging discussion of cognitive and emotional processes in infancy of the effects of early experience on later growth and of the deep seated cultural and historical assumptions that underlie our views of human development For those concerned with social policy the book provides the best empirical assessment now available of the effects of group care on the psychological well being of infants It also supplies a blueprint for quality daycare that may well stand as a model for future nurseries For those interested in the course of cognitive and emotional development the book provides rich information about the major growth functions that characterize human infancy It also outlines an explanation of these growth functions that links changes in emotional behavior to the maturation of underlying cognitive processes in a new and provocative way And for everyone interested in human nature the book of offers a controversial thesis about the discontinuity of psychological growth that challenges some of our most fundamental assumptions about the nature of individual development Handbook of Child Psychology, Theoretical Models of Human Development William Damon,Richard M. Lerner,2006-05-19 Part of the authoritative four volume reference that spans the entire field of child development and has set the standard against which all other scholarly references are compared Updated and revised to reflect the new developments in the field the Handbook of Child Psychology Sixth Edition contains new chapters on such topics as spirituality social understanding and non verbal

communication Volume 1 Theoretical Models of Human Development edited by Richard M Lerner Tufts University explores a variety of theoretical approaches including life span life course theories socio culture theories structural theories object relations theories and diversity and development theories New chapters cover phenomenology and ecological systems theory positive youth development and religious and spiritual development *Child Health and Human Development* National Institute of Child Health and Human Development (U.S.),1970 *Child Care and Child Development* NICHD Early Child Care Research Network,2005-12-23 This important work presents the results of the most comprehensive scientific study to date of early child care and its relation to child development In one volume a critical selection of material from the most salient journal articles is brought together with new overviews and a concluding commentary Provided is a wealth of authoritative information about the ways in which nonmaternal care is linked to health psychological adjustment and mother child bonds in the first six years of life The study addresses the full complexity of this vital issue taking into account a range of family characteristics as well as the quality of child care experiences An essential resource for developmentalists early child care specialists and educators this volume offers compelling new perspectives on practice policy and research
