Child Learning Intelligence Personalit:

Child Learning, Intelligence, and Personality Arthur W. Staats, 1977 **For What Child** L. Lawrence Riccio, 2014-05-05
For What Child a must read for parents future educators and those interested in the education of the child Written by Dr L
Lawrence Riccio a professor in special education and international teacher training programs he brings a unique set of skills
to the problem of how to educate each child The author presents a child first philosophy a process to ensure a genuine
teaching and learning experience for a child that focuses on the child the child s immediate environment and the rationale for
instruction where the child is both the consumer and co leader of the instructional process For What Child is about equal
educational opportunity and social justice the civil rights issue of the century For any child education today is the key to
securing one s own place in the world True education has the power to enable each individual to grow and evolve in society
moving from local understanding to global knowledge and its applications Equilibrium must be established to support each
child paying special attention to the child s actions beliefs and community As caring adults we must look beyond the rubric of
an army teaching to the curriculum If we look at the whole child and understand that each child is exceptional the child has a
right to learn for understanding Instruction then must take many atypical forms which are malleable time sensitive and goal
oriented A child is not just a body on a seat but a living breathing being with experiences skills values talents and dreams
that must be investigated and understood before real and lasting learning can begin Research Grants Index National
