Children Of The Future:

Our Children's Future Gordon Cleveland, Michael Krashinsky, 2001-01-01 Assembling key experts and activists in the area of Canadian child care policy this book makes an important contribution to understanding how Canada with its particular institutions politics and values should design a national child care strategy We Are Our Children's Future Nancy C. Wilkens, 2004 Nobody talks about common laws anymore We should because the true balance of power in a Democracy is the distinction between common law and statutory law Does that balance still exist No because with each passing day the principles and values upon which the United States was founded are being eroded Federal and judicial manipulation has made the Constitution Bill of Rights nearly irrelevant As Americans we are the most powerful citizens in the world We can choose our own representatives We can choose to acquire as much knowledge as we desire We can choose to worship God in our own way We can choose to turn our ideas into reality We have opportunities that went undreamt of before 1776 and unrealized in much of the world today We have the power to choose an environment that encourages respect and integrity For 200 years people had the protection of the Constitution Bill of Rights We educated our children we exercised our religion we had the freedom to speak our minds we had property rights we could not be subjected to double jeopardy and the states had authority We had common laws For 200 years we were a people Times have changed We have lost that power States must educate our children in a costly federally mandated manner our property rights are controlled by tax laws and use constraints and when and where we choose to exercise our beliefs is governed We may not voice objections openly or express our opinion unless it is politically correct We are tried on the state and federal levels for the same crime and the states Constitutional power has been suspended by overreaching federal power Our common laws and choices are now bound by federal dictate that is enlarged upon by lawyers courts bureaucrats politicians and special interests with every passing day We have lost our democratic privileges and rights What has this to do with our children Everything If we continue to let the government usurp the power of the people our children will never enjoy the freedoms the Founding Fathers won for us
