Books And Writers:

Author and Journalist, 1925 *A Book about Books* E. H. Bernstein, 2017-06-25 This book is part I of III Only the first part is finished at this time As the other parts are finished I will try to publish them The title and subtitle of this book explain what I want this book to be about but perhaps there are a few insights I can add There used to be a PBS television program called the Eleventh Hour where well known and lesser known persons who had reached a certain age were given a chance to make a statement perhaps their final statement in the form of a lecture from a podium I feel like this book and its subsequent parts will be my statement A second and equally important purpose is to try to make a difference Sometimes there are books that I have only heard about or about which I know only a little Roger Rosenblatt s book about writing *Unless It Moves the Human Heart* is one such book He was interviewed on PBS TV by their arts correspondent Jeffrey Brown This is what Roger said about what writing should be and I have always remembered it To make suffering endurable to make evil intelligible to make justice desirable to make love possible and ultimately to be useful to the world and to make the world better There are also other literary gems in the interview Finally another fragment of a book that I have seen is from Richard Rodriguez s autobiographical book *Hunger for Memory* in which he describes his first encounter with books in school his struggle to make sense of them and what use to make of them That particular excerpt also appears in *Life Studies A Thematic Reader* third edition edited by David Cavitch I want to share as much as I can of what I ve learned from almost fifty years of reading there will be more reading certain kinds of books I hope my book will be of use

The Writer, 1911 *Geniuses, Addicts, and Scribbling Women* Cynthia Cravens, 2023-01-15 Through a critical discussion of an array of written and visual texts that feature a writer as a main character *Geniuses Addicts and Scribbling Women Portraits of the Writer in Popular Culture* argues for a more nuanced conception of the role of writers in society their relationships with their reading publics the portrayals and realities of their labor and the construction of a writing identity Expounding upon the critical genre of authorship studies the contributors take on complex issues such as economics professionalization gender politics and writing pedagogy to shape the dialogue around the nature of representation and the practice of narrative Ultimately contributors consider the ways in which debates over art craft authorial celebrity and the literary marketplace define the parameters of culture in a given period and influence the work of culture producers The implications of such an analysis reveal much about the status and value of creative writers and their work This collection covers a wide range of historical periods offering a complex understanding of representations of writers from the medieval period to the Netflix era Such an evolution challenges the perception of the writer as a monolithic presence in society and highlights its multiplicity diversity and its transformations through cultural and political movements
