The Emotional Lives of Animals & Children William Crain,2014-10-17 In 2008 Bill Crain a professor of psychology at The City College of New York and his wife Ellen a pediatrician opened Safe Haven Farm Sanctuary in Poughquag New York The sanctuary provides a permanent home to over 70 animals rescued from slaughter and abusive situations including goats sheep chickens turkeys ducks partridges and a mini horse It also has afforded Bill a tremendous opportunity to observe animals in all manner of emotional states and how their behavior casts light on the emotions of human children In The Emotional Lives of Animals and Children Crain honors the work of John Bowlby a psychoanalyst who began his major writings in the 1950s Bowlby drew on biologists observations of animals to provide a compelling account of children s attachment to their caretakers Today the study of attachment is extremely popular Crain writes but one would hardly know that the initial inspiration came from observations of non human animals Moreover there has been little effort to extend Bowlby s work to see how the study of animals illuminates other aspects of child development Crain suggests that the reluctance to follow Bowlby s lead reflects the Western worldview that considers humans as different from and superior to other species To think about children in the same

category as animals seems to demean children But Crain discovered that the farm animals emotional behaviors can help us understand those of human children The Emotional Lives of Animals and Children is divided into two parts Part one discusses six emotional behaviors that are shared by animals and children fear play freedom care spirituality and resilience Part two addresses the broader social theme of our Western culture s disparagement of animals Initially children do not set themselves apart from nature but experience it with an instinctive empathy However they are eventually taught by our society to detach themselves and to devalue animals Crain writes As people attempt to move beyond society s dominant views of animals they can also draw on a neglected idea that goes back to ancient times This is the view that there is a special wisdom in the child s ways of knowing This view is found in the ancient Chinese Taoist statement wise souls are children About Safe Haven Farm Sanctuary Safe Haven Farm Sanctuary is located in Poughquag New York about an hour and a half outside of New York City Its focus is on the rescue of abused and neglected farm animals In doing so it hopes to raise awareness of the plight of animals raised for food and the benefits of a vegan diet for animals human health and the environment Wherever possible the sanctuary tries to implement environmentally sound practices such as solar heating and the use of reclaimed wood *Brotherhood of Locomotive Firemen's Magazine*, 1911 *Machinists' Monthly Journal.
