Immigration Herbert M. Levine,1998 Presents information on all sides of the immigration issues of today discussing illegal immigration immigration and the economy assimilation and other aspects *Heimat and Migration* Josef Stuart Len Cagle,Thomas Herold,Gabriele Maier,2023-02-20 Discourses of Heimat and of migration both negotiate questions of identity belonging and integration moreover despite the reemergence of right wing racist and exclusionary uses of the term Heimat there are in fact more recent German language cultural texts that problematize and challenge a view of Heimat as a community that excludes the Other than there are promulgating it This volume addresses the parallel proliferation of discourses of Heimat and of migration in contemporary German language culture and demonstrates that the entanglement of migration and Heimat can be productive it can help us to reframe what it means to have a home to lose one find one or belong to one **An Exiled Generation** Heléna Tóth,2014-10-30 Focusing on migr s from Baden W rtemberg and Hungary in four host societies Switzerland the Ottoman Empire England and the United States Hel na T th considers exile in the aftermath of the revolutions of 1848 9 as a European phenomenon with global dimensions While exile is often presented as an individual challenge T th studies its collective aspects in the realms of the family and of professional and social networks Exploring the interconnectedness of these areas she argues that although we often like to sharply distinguish between labor

migration and exile these categories were anything but stable after the revolutions of 1848 9 migration belonged to the personal narrative of the revolution for a broad section of the population Moreover discussions about exile and amnesty played a central role in formulating the legacy of the revolutions not only for the migr s but for their social environment and ultimately the governments of the restoration Yearbook of Transnational History Thomas Adam,2021-05-03 The Yearbook of Transnational History is dedicated to disseminating pioneering research in the field of transnational history This fourth volume is focused to the theme of exile Authors from across the historical discipline provide insights into central aspects of research into the phenomenon of exile in the nineteenth and twentieth century Both centuries have seen large numbers of people fleeing revolutions oppression persecution and extermination This volume is the first publication to provide a comprehensive overview over exiles of various political and ethnic groups beginning with the French Revolution and ending with the transfer of Nazi scientists from post World War II Germany to the United States This volume contains contributions about the refugees created by the French Revolution the Forty Eighters who were forced out of Germany after the failed Revolution of 1848 49 the anarchists Emma Goldman and Alexander Berkman Vietnamese anti colonial activists in France the exiles of Nazi Germany and the transfer of Nazi scientists such as Wernher von Braun to the United States after World War II

When the "other" is Ourselves Vida Mia Garcia,2009 This dissertation begins with the premise that the founding assumptions undergirding the interdisciplinary field of Tourism Studies have necessarily if not inevitably engendered a set of critical lacunae around race and ethnicity Specifically these assumptions have functioned to circumscribe any racial paradigm in which people of color are anything but the objects of touristic inquiry When the other is ourselves imperial legacies tourist imaginaries and the representation of difference in Chicana o travel writing and cultural production asks what subjectivities are re formed when the supposed Other is doing the touring particularly when that someone encounters what she senses is an exoticized or fetishized reflection of herself Through an examination of Chicana o memoirs visual art and fiction that center Mexican American actual and imagined factual and fictionalized experiences of touristic mobility this study considers new and different questions about identity difference and representation in literary and cultural discourses

Translation and Diaspora Nike K. Pokorn,Brian James Baer,2026-04-20 The collective volume Translation and Diaspora explores for the first time in a systematic way diasporic communities as a distinct site of translational activity and highlights how fundamental translational activity has been to the development of diasporas in the USA Contrary to the quite extensive research on translation and migration Translation and Diaspora with its exploration of interlingual translational activity of non Anglophone migr communities in the USA places greater emphasis on the dwelling than on the transit highlighting how translational activity is shaped by the broader socio economic and political forces that underpin the development of diasporic communities The collection is organized into sections featuring historical case studies on key venues of diasporic translation periodicals and publishing houses and key agents in diasporic translation translators editors and associations Taken together

the chapters demonstrate how the study of translation can offer unique insights into the relational and constructed nature of national and cultural identities in diasporic communities in the USA and beyond Translation and Diaspora will be of interest to scholars in translation studies as well as to those from related fields such as migration diaspora and exile studies comparative literature and American studies **Beginnings and Ends of Emigration** Dalia Kuiziniene, 2005

Suárez, 2008-10-15 This is a lyrical and timely collection that explores the meaning of home and identity for Cubans living on the island as well as for those in far flung locations around the globe El-Hi Textbooks and Serials in Print, 2006 **Library Media Connection**, 1992 **Crossing the Borders of German and American Modernism** Karen A.
