Born In Ashpreasonable Facsimile An Autobiography:

My Birth; the Autobiography of an Unborn Infant Armenouhie Tashjian Lamson, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1916 edition Excerpt CHAPTER II THE PATTERN OF MY FUTURE SELF Surely that was the greatest day in my life the day which rightfully ought to be remembered as my birthday On that day of all days the greatest miracle in my life took place when the two primary elements the spermatozoon and the ovum met and uniting gave a new life to a stray little ovum whose days were numbered in a single file If this great incident had not taken place I would have perished in the surrounding foreign elements within a few days perhaps in a few hours just like many of my sister ova who had left the ovary before me Instead through the kind act of the male element I was given a new life to live in your world of experiences hopes and opportunities In the act of fertilization of the ovum a marvelous human body with all its complex organisms was called into being The character of its species sex and appearance was decided upon and the corner stone of its mental moral and emotional life was laid Unfortunately it is beyond our comprehension and understanding how a mere meeting and uniting of two single cells can have such miraculous consequences A closer inspection of the two fundamental cells may somewhat help you picture how the wonder pattern of my future life was drawn The female sex cell the ovum and the male sex cell the spermatozoon equally share the great task of the propagation of the species Both are single cells of extreme minuteness A mature ovum is not larger than 0.25 mm in diameter while the spermatozoon measures 0.05 mm only Just as large as an average ripe ovum Still both contain all the vital elements which you find in an ordinary egg of a bird In the center buried in the yolk germinal vesicle is a little dense spot
