**Boston** Edward Stanwood,2017-12-24 Excerpt from Boston Illustrated But while we find such abundant means of judging the people of Boston hardly a vestige of the town as it appeared to the earliest settlers remains We have it is true in a good state of preservation still the three most ancient burial grounds of the town half a dozen very old trees remain about as many buildings Some of the narrow and crooked streets at the North End have retained their early devious course but generally appear upon the map under changed names Nothing else of Boston in its first century is preserved The face of the country has been completely trans formed The hills have been cut down and the ats surrounding the peninsula have been filled so that it is a peninsula no longer Place side by side a map of Boston as it appeared in 1722 and the latest map and any resemblance between them can hardly be traced The old water line has disappeared completely On the east the west and the south nearly a thousand acres once covered by the tide have been re claimed and are now covered with streets dwellings and warehouses About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
