Botero Fernando Botero, 2003 One of the most popular artists alive today Fernando Botero creates paintings with a powerful monumentality that immediately captures the viewer The joyfully rotund humans who populate his canvasses are among the most recognizable figures in twentieth century art But it is women in particular who have always fascinated Botero and make up the core of his long career This deluxe volume the first devoted solely to this theme includes 50 unpublished works and a total of more than 150 paintings drawings and sketches With their bulbous figures and solid flesh Botero's women evoke a primal sensuality and voluptuousness But they are also betrayed with a playful sense of humor and underlying irony Never voyeuristic his paintings are more complex celebrations of the female form its palpable plentitude its sensual exuberance and its impenetrable mystery back cover

Botero Fernando Botero, Benjamín Villegas Jiménez, 2003 **Battles for Belonging** Sandra Sánchez-López, 2024-03-06 Battles for Belonging Women Journalists Political Culture and the Paradoxes of Inclusion in Colombia 1943-1970 examines women journalists who conceived of their publications as political interventions in mid twentieth century Colombia These journalists committed to shaping justice and opportunity for women in society through writing while battling within the publishing realm to also transform and professionalize the practice of journalism in their own terms By analyzing the contentious narratives of gender and class these women crafted as well as their conflicting efforts to maintain their stature in the printing and public worlds it reveals the ongoing negotiations involved within their disputes over inclusion and democracy in a country still finding its way to equality peace and stability between the 1940s and 1960s This book challenges oversimplified portrayals of struggles for power that either glorify or vilify these historical processes by erasing the complexity of the political and social actors involved in them It stresses the importance of women but not to the expense of a balanced critique of their historical reality actions and endeavors This is a history of paradoxical political manifestations and a redefinition of power struggles as multidirectional intersectional non monolithic historical processes from the viewpoint of women
