Hugh C. Miller

Chicago School Of Architecture:

The Chicago School of Architecture Carl W. Condit,1964 This thoroughly illustrated classic study traces the history of the world famous Chicago school of architecture from its beginnings with the functional innovations of William Le Baron Jenney and others to their imaginative development by Louis Sullivan and Frank Lloyd Wright The Chicago School of Architecture places the Chicago school in its historical setting showing it at once to be the culmination of an iron and concrete construction and the chief pioneer in the evolution of modern architecture It also assesses the achievements of the school in terms of the economic social and cultural growth of Chicago at the turn of the century and it shows the ultimate meaning of the Chicago work for contemporary architecture A major contribution by one of the world s master historians of building technique Reyner Banham Arts Magazine A rich organized record of the distinguished architecture with which Chicago lives and influences the world Ruth Moore Chicago Sun Times *The Chicago School of Architecture* Rolf Achilles,2013-06-10 The birth of the skyscraper in Chicago in the mid 1880s introduced a new direction for city architecture upwards But how and why was it that Chicago set the standard for high rise buildings not only across the USA but all over the world Rolf Achilles here introduces the style of the First Chicago School from 1880 to 1910 explaining the innovative use of iron frames for strength height and openness and the ubiquity of gridded window arrangements With reference to such famous architects as William Le Baron Jenny and Frank Lloyd Wright and colorful pictures of among many others the Reliance Brooks and Marquette buildings this book is a fascinating exploration of the structures that helped to give Chicago its identity and the world a new way of building **The Chicago School of Architecture** Hugh C. Miller,United States.

The Chicago School of Architecture Carl W. Condit,1964 This thoroughly illustrated classic study traces the history of the world famous Chicago school of architecture from its beginnings with the functional innovation of William Le Baron Jenney and others to their imaginative development by Louis Sullivan and Frank Lloyd Wright The Chicago School of Architecture places the Chicago school in its historical setting showing it at once to be the culmination of an iron and concrete construction and the chief pioneer in the evolution of modern architecture It also assesses the achievements of the school in

terms of the economic social and cultural growth of Chicago at the turn of the century and it shows the ultimate meaning of the Chicago work for contemporary architecture Backcover □□□□□□□□ Masami Takayama,1982 **The Chicago School of Sociology** Martin Bulmer,1986-08-15 From 1915 to 1935 the inventive community of social scientists at the University of Chicago pioneered empirical research and a variety of qualitative and quantitative methods shaping the future of twentieth century American sociology and related fields as well Martin Bulmer s history of the Chicago school of sociology describes the university s role in creating research based and publication oriented graduate schools of social science This is an important piece of work on the history of sociology but it is more than merely historical Martin Bulmer s undertaking is also to explain why historical events occurred as they did using potentially general theoretical ideas He has studied what he sees as the period from 1915 to 1935 when the Chicago School most flourished and defines the nature of its achievements and what made them possible It is likely to become the indispensable historical source for its topic Jennifer Platt Sociology
