Miguel R. López, 2001 The premature death of Ricardo Sánchez in 1995 marked the passing of an almost legendary figure in Chicano literature and in the Chicano political movement. A troubadour of Chicano Movement poetry, he established an anti-aesthetic that became the norm. Sánchez's autobiographical poetry forges a link between genres of the past and present and establishes him as the first great tragic figure of contemporary Chicano literature. In a body of work that spanned spatial, temporal, and cultural boundaries, Sánchez dealt with issues of power and of linguistic and cultural barriers between Anglo, Native American, and Mexican American peoples in the United States. While he lived, critics showed reluctance to engage Sánchez's work fully, perhaps in part because of his reputation as a confrontational, even outrageous individual. Focusing on *Canto y grito*, *mi liberación*, and *Hechizo*, spells Miguel R. López examines Sánchez's work and places him in the context of the past, present, and future of Chicano literature. López explains clearly the relation of time and space in Sánchez's prolific work and shows him as a writer committed to his craft as well as to his political stance. In the end, the portrait that emerges is of a poet whose work was linguistically and thematically complex and one who was more passionate, controversial, and forthright in his expression than any other contemporary Chicano writer. *Chicano Writers*, Francisco A. Lomelí, Carl R. Shirley, 1992 Devoted to literature produced by writers of Mexican descent born in the United States, living here permanently or having lived in the territory which until 1848 was part of Mexico. **Mexican Literature**, David William Foster, 2010-07-22 Mexico has a rich literary heritage that extends back over centuries to the Aztec and Mayan civilizations. This major reference work surveys more than five hundred years of Mexican literature from a sociocultural perspective. More than merely a catalog of names and titles, it examines in detail the literary phenomena that constitute Mexico's most significant and original contributions to literature. Recognizing that no one scholar can authoritatively cover so much territory, David William Foster has assembled a group of specialists, some of them younger scholars who write from emerging trends in Latin American and Mexican literary scholarship. The topics they discuss include pre-Columbian indigenous writing, Joanna O'Connell, Colonial literature, Lee H. Dowling, Romanticism, Margarita Vargas, nineteenth-century prose fiction, Mario Martín Flores, Modernism, Bart L. Lewis, major twentieth-century genres, narrative, Lanin A. Gyurko, poetry, Adriana García, theater, Kirsten F. Nigro, the essay, Martin S. Stabb, literary criticism, Daniel Altamiranda, and literary journals. Luis Peña Each essay offers detailed analysis of significant issues and major texts and includes an annotated bibliography of important critical sources and reference works. Chicano Periodical Index, 1987 Thinking en español, Jesús Rosales, 2014-11-06 *Thinking en español* captures conversations with leading Chicana and Chicano literary critics. This unique book consists of interviews with founding members of Chicano criticism conducted by the author, Jesús Rosales, who through his conversations with leaders such as Luis Leal, María Herrera-Sobek, Tey Diana Rebolledo, and Juan Rodríguez shows the path of criticism from 1848 to the present. The twelve critics interviewed for this project share certain characteristics. For each one, Mexico plays an essential role in his or her personal and academic background, and each is bilingual and bicultural, having received formal literary education in

Spanish graduate programs As products of the working class each scholar here shares a sense of social consciousness and commitment that lends an urgency to their desire to promote Chicano literature and culture at the local regional national and international levels They serve as a source of inspiration and commitment for future generations of scholars of Chicano literature and leave a lasting legacy of their own Thinking en espa ol legitimizes Chicana o criticism as an established discipline and documents the works of some of the most important critics of Chicano literature at the turn of the twentieth and into the twenty first century This timely book immortalizes literary historical figures and documents the trajectory of Chicano criticism Spilling the Beans in Chicanolandia Frederick Luis Aldama,2010-01-01 Since the 1980s a prolific second wave of Chicano a writers and artists has tremendously expanded the range of genres and subject matter in Chicano a literature and art Building on the pioneering work of their predecessors whose artistic creations were often tied to political activism and the civil rights struggle today s Chicano a writers and artists feel free to focus as much on the aesthetic quality of their work as on its social content They use novels short stories poetry drama documentary films and comic books to shape the raw materials of life into art objects that cause us to participate empathetically in an increasingly complex Chicano a identity and experience This book presents far ranging interviews with twenty one second wave Chicano a poets fiction writers dramatists documentary filmmakers and playwrights Some are mainstream widely recognized creators while others work from the margins because of their sexual orientations or their controversial positions Frederick Luis Aldama draws out the artists and authors on both the aesthetic and the sociopolitical concerns that animate their work Their conversations delve into such areas as how the artists or writers life experiences have molded their work why they choose to work in certain genres and how they have transformed them what it means to be Chicano a in today s pluralistic society and how Chicano a identity influences and is influenced by contact with ethnic and racial identities from around the world
