from serious study Consequently we have little knowledge of the experience of victims or of professional perspectives on
female sex offending Myriam Denov fills these critical gaps in the literature by examining the life histories and experiences of
both male and female victims of female sex offenders and by investigating the impact and consequences of the sexual abuse
She also explores professional responses to female sex offending and the ways in which police officers and psychiatrists have
understood portrayed and managed such cases In addition to filling the substantial empirical void that surrounds the issue
