**Children and War** Helga Embacher, 2013 The amount of international research on Children and War carried out by academics governments and non governmental organizations has continually increased in recent years At the same time there has been growing public interest in how children experience military conflicts and how their lives have been affected by war and its aftermath In light of the many brutal post colonialist civil wars or new wars especially in Africa and Asia child soldiers have in particular gained increased attention Simultaneously since the 1990s the history of the Holocaust and World War II has also increasingly been written from the perspective of children those who speak out now and publish their memoirs experienced the Holocaust as children A similar generational change has also taken place in the societies of the perpetrators Germans and Austrians who experienced the war as children took over the role of war witnesses from the soldiers of the German Wehrmacht Moreover intensified focus on children's experiences and their strategies for dealing with what they went through is evident in Eastern Europe as well In Children and War Past and Present scholars from different academic disciplines practitioners in the field and representatives of government and non governmental institutions approach this sensitive subject from different angles and in various methodological ways The book shows how children expressed their experiences in letters memoirs and diaries during and after World War I and World War II and how children remembered those wars Many of the authors also deal with various long term psychological effects Using the example of children's literature in World War I and the representation of child survivors in the postwar cinema another focus of the book is on the representation of children in different wars Based on post colonial and contemporary wars in Africa images of girl and boy soldiers created by the media NGOs and

governments as well as trends in how they are represented in contemporary research are also discussed The last section of the book concentrates on various institutions such as welfare organizations and NGOs dealing with children in different wars How have institutions supported children And concerning contemporary conflicts how does the international community face the question of international justice and adapt to children s needs [A Child's War](#) Mike Brown,2011-11-08 When the Second World War broke out in September 1939 it came as no surprise to the children of Germany the Nazis had been preparing them for a war ever since they had come to power in 1933 To British children it was an altogether different matter Children all over Britain were deeply affected by the war many were separated from their parents by evacuation or bereavement all had to make do and mend with clothes and toys and some even died while contributing to the war effort at home In this moving and often amusing account Mike Brown describes what life was like on the Home Front during the war from a child s point of view His fully illustrated narrative includes details of evacuation rationing coping with gas masks and air raids entertainment and the important and often dangerous roles of the Boy Scouts and Girl Guides This photographic history pays tribute to the generation of girls and boys who grew up under the shadow of the Second World War **Child of War** Ben Chirasha,1985 **A Child's War** Kati David,1989 Fifteen people who were children during World War II share their memories of the period and explain how it shaped their lives **A Child's War** Mike Brown,2002-07-01 **A Child's War** Ali Holborn,2019-02-25 *Korean War For Kids: A Children's War History Picture Book* Bold Kids,2019-05-15 The Korean War was another significant point in history that not many know about But with this book your child can learn all about this time period and what it meant for society Pick up a copy today to learn more about this and the impact this war had on society **Children and War** James Marten,2002-08-24 This anthology is breathtaking in its geographic and temporal sweep Canadian Journal of History The American media has recently discovered children s experiences in present day wars A week long series on the plight of child soldiers in Africa and Latin America was published in Newsday and newspapers have decried the U S government s reluctance to sign a United Nations treaty outlawing the use of under age soldiers These and numerous other stories and programs have shown that the number of children impacted by war as victims casualties and participants has mounted drastically during the last few decades Although the scale on which children are affected by war may be greater today than at any time since the world wars of the twentieth century children have been a part of conflict since the beginning of warfare Children and War shows that boys and girls have routinely contributed to home front war efforts armies have accepted under aged soldiers for centuries and war time experiences have always affected the ways in which grown up children of war perceive themselves and their societies The essays in this collection range from explorations of childhood during the American Revolution and of the writings of free black children during the Civil War to children s home front war efforts during World War II representations of war and defeat in Japanese children s magazines and growing up in war torn Liberia Children and War provides a historical context for two centuries of children s
