**Children's Catalog** H.W. Wilson Company, 1916 The 1st ed includes an index to v 28-36 of [St Nicholas](#) [The Muslim World](#), 1924 *The Report: Egypt 2008*, 2008 *Managing Egypt's Poor and the Politics of Benevolence, 1800-1952* Mine Ener, 2003-10-12 This richly textured social history recovers the voices and experiences of poor Egyptians: beggars, foundlings, the sick and maimed, giving them a history for the first time. As Mine Ener tells their fascinating stories alongside those of reformers, tourists, politicians and philanthropists, she explores the economic, political and colonial context that shaped poverty policy for a century and a half. While poverty and poverty relief have been extensively studied in the North American and European contexts, there has been little research done on the issue for the Middle East and scant comprehensive presentation of the Islamic ethos that has guided charitable action in the region. Drawing on British and Egyptian archival sources, Ener documents transformations in poor relief, changing attitudes toward the public poor, the entrance of new state and private actors in the field of charity, the motivations behind their efforts and the poor's use of programs created to help them. She also fosters a dialogue between Middle Eastern studies and those who study poverty relief elsewhere by explicitly comparing Egypt's poor relief to policies in Istanbul and also Western Europe, Russia and North America. Heralding a new kind of research into how societies care for the destitute and into the religious prerogatives that guide them, this book is one of the first in-depth studies of charity and philanthropy in a region whose social problems have never been of greater interest to the West.

**Childhood in Ancient Egypt** Amandine Marshall, 2022-05-10 A groundbreaking account of how the ancient Egyptians perceived children and childhood from the Predynastic period to the end of the New Kingdom. There could be no society, no family and no social recognition without children. The way in which children were perceived, integrated and raised within the family and the community established the very foundations of Egyptian society. *Childhood in Ancient Egypt* is the most comprehensive attempt yet published to reconstruct the everyday life of children from the Predynastic period to the end of the New Kingdom. Drawing on a vast wealth of textual, iconographic and archaeological sources stretching over a period of 3,500 years, Amandine Marshall pieces together the portrait of a society in which children were ever present in a multiplicity of situations. The ancient sources are primarily the expressions of

male adults who were little inclined to take an interest in the condition of the child and the feelings of young Egyptians and all that touches on their emotional state can never be deduced from the sources Nevertheless by cross referencing and comparing thousands of documents Marshall has been able to explore how ancient Egyptians perceived children and childhood and whether children had a particular status in the eyes of the law society and the Egyptian state She examines the maintenance of the child and the care expended on its being and discusses the kinds of clothing jewelry and hairstyles children wore the activities that punctuated their daily lives the kinds of games and toys they enjoyed and what means were employed to protect them from illness evil spirits or ghosts Illustrated with 160 drawings and photographs this book sheds unprecedented light upon the experience of childhood in ancient Egypt and represents a major contribution to the growing field of ancient world childhood studies
