Children Of The Rainbow:

Multicultural Education James A. Banks, Cherry A. McGee Banks, 2010 *Multicultural Education* is a reader which helps educators understand the concepts, paradigms and explanations needed to become more effective practitioners in culturally, racially and language diverse classrooms

Children of the Stars Nikki Pattillo, 2008-08 Star children are children who have been sent here from all areas of the universe to help the earth and the people on it. They possess psychic, spiritual and other extra-sensory abilities. These children will bring peace, topple corrupt systems and shift dimensional consciousness in the years to come. They have come here on special assignment to assist in this rebirth into a higher-dimensional Earth. Since the beginning of time, parents have wished their kids came with an owner's manual. Big changes are coming as this is a new world, a new energy grid, and the children of the stars or Star children, as we call them, have finally arrived to help save the earth with no owner's manual. This book is a guide to help parents understand their Star children and to help each parent spiritually understand what is happening with these gifted youngsters who are here to help us. Yes, your children can be your spiritual advisors and they are here to help us. They will try to teach us many lessons. Most we won't understand, some we won't even know are lessons. With the help of this guide, a few of us may catch on. Valuable for educators to become aware that they are dealing with an entirely new generation of children who do not think or behave like those who have gone before them. This book is also intended to help our younger or older Star children understand and not be afraid of what they are seeing or hearing that many others cannot see or hear. Topics: Indigo to Crystal to Rainbow Transitions, Environmental Stress and Your Star Child, The Importance of Healthy Food, The Nine Dimensions of Consciousness, A Global Crisis Help Is On the Way

Disputing the Subject of Sex Cris Mayo, 2007-04-26 Sexuality remains a hotly debated subject nowhere more so than in education. This perceptive and balanced book shows that discussions of sexuality and schooling can be simultaneously polarizing and democratizing. *Disputing the Subject of Sex* examines controversies over sex, AIDS, and gay-inclusive multicultural education which offer especially fruitful opportunities to explore the claims of various identities, the social aims of public schools, and the relation between schools and the publics they serve. These controversies help to show the kind of confused tumble of discourses, seemingly nonsensical policy decisions, and student resistances that are born of arguments over sexuality and community membership. In part, disputes over sexuality are driven by conservative and anti-pluralist agendas that help communities draw strong lines around themselves in an effort to stave off what they perceive as threatening shifts in gender and sexual identity. However, these disputes are also democratizing, allowing a variety of constituents to argue their case in the public sphere. Rather than choosing between one of these two positions, this book uses case studies, interviews with queer youth, and analysis of curricular texts to help readers understand how power dynamics play out in educational controversies and how they can guide us to new ideas about students' abilities to learn and relate ethically to one another about the subject of sex
