Children's Friendships In Culturally Diverse Classrooms James G. Deegan, 2003-12-16 Using material from American Australian and British empirical studies this book examines children s interests needs assets and capacities in multicultural classrooms and provides international comparisons on what it is like to be and have friends The book also explores children s developing ideas of friendships and how they are linked to peer cultures And Looks Into How Such Friendships Can Motivate Children s Socializing in today s schools *Indicators of Children's Well-Being* Robert M. Hauser, Brett V. Brown, William R. Prosser, 1997-12-04 The search for reliable information on the well being of America s young is vital to designing programs to improve their lives Yet social scientists are concerned that many measurements of children s physical and emotional health are inadequate misleading or outdated leaving policymakers ill informed Indicators of Children s Well Being is an ambitious inquiry into current efforts to monitor children from the prenatal period through adolescence Working with the most up to date statistical sources experts from multiple disciplines assess how data on physical development education economic security family and neighborhood conditions and social behavior are collected and analyzed what findings they reveal and what improvements are needed to create a more comprehensive and policy relevant system of measurement Today s climate of welfare reform has opened new possibilities for program innovation and experimentation but it has also intensified the need for a clearly defined and wide ranging empirical framework to pinpoint where help is needed and what interventions will succeed Indicators of Children s Well Being emphasizes the importance of accurate studies that address real problems Essays on children s material well being show why income data must be supplemented with assessments of housing medical care household expenditure food consumption and education Other contributors urge refinements to existing survey instruments such as the Census and the Current Population Survey The usefulness of records from human service agencies child welfare records and juvenile court statistics is also evaluated *African American Fathers' Involvement in their Children's Education* Tasha L. Alston, 2021-11-05 The literature tells us that parental involvement affects academic achievement However much of the literature on parental involvement focuses on the involvement of mothers with limited information about the involvement of fathers especially African American fathers The parental involvement literature on

African American fathers is insufficient compared to their White counterparts African American fathers do not have a voice in the literature on parental involvement A racial and gender bias exists in the literature on parental involvement that marginalizes the voice of African American fathers African American Fathers Involvement in their Children s Education seeks to understand the relationship that African American fathers have with the education of their children by using Critical Race Theory as a theoretical framework to privilege the voice of African American fathers This text focuses on the contributions that African American fathers make in the lives of their children and families challenges the master deficient narrative and humanizes African American fathers This book purposefully and unapologetically portrays African American fathers as the brilliant excellent human beings they are
