## WHAT IS SPEECH & LANGUAGE?

"Speech" can be thought of as verbal communication. It is the act of speaking that we make sounds by air & vibrations of the vocal cords, tongue, lips, & mouth. Speech may carry the message in a many different ways.

There are three main components of speech:

- 1. Articulation (how we make each sound)
- 2. Meaning (using our "vocal cords")
- 3. Fluency (fluency and rhythm)

"Language" encompasses how we use speech to communicate with others in order to communicate. Language also consists of other parts: expression (the words & sounds we use) and receptive (what we understand) & the social context of communication. It is the rules of communication.

Speech-Language Pathologists (SLPs) can help! SLPs are all master's-level educated individuals working to help children & adults improve communication. SLPs diagnose a variety of communication & hearing impairments, prior to hearing devices.

SLPs are licensed both by the state in which they practice & the American

Speech-Language-Hearing Association (ASHA) to work with individuals of varying needs & diagnoses in the areas of articulation, phonology, fluency, voice, feeding and swallowing.

SLPs typically work in clinics, schools, hospitals, or nursing homes.

## HOW TO ENCOURAGE SPEECH & LANGUAGE

Communicative temptations create situations where a child needs to gesture, vocalize, or verbally to have his or her needs met before giving desired object (e.g., "poodle please")

Feedback: Having a child imitate you helps him or her to produce words & sounds at appropriate times (e.g., saying "hi" to animal food as you take them out of the bowl)

Expanding: using a child's language and expanding it to make it more complex (e.g., child says "ball," adult can say "that is your ball")

Build vocabulary: target and engage relevant new words (e.g., seasonal words) to help build vocabulary

Read aloud: emphasize & reinforce new words, ask questions about the story while reading, ask child to retell the story (if age appropriate)

Ask questions: posing questions about daily activities are a great way to encourage language skills, including naming & understanding functions.

Repeat everything: modeling your own speech and language can increase exposure to correct production & enhance a child's abilities.
