The book then examines how foodiness is taken up by schools with different SES profiles by showing how food moves through the school day Asking critical questions on class and poverty that are often overlooked this book will be of interest to researchers academics and students working on food issues related to teaching food policy and schools in the fields of education sociology and food studies It should also be of interest to policymakers parents and teachers The Child's own magazine ,1898 **House documents** ,1883 Notes of Lessons for Infant Classes & the First Standard J.
