Henry Longueville Mansel Francesca Norman, 2023-09-25 Henry Longueville Mansel 1820 1871 Anglican theologian and philosopher has wrongly been remembered as a Kantian agnostic whose ideas led to those of Herbert Spencer Francesca Norman s book provides a thorough revisioning of Mansel s theology in context and reveals the personal basis of Spencer s animus towards Mansel Mansel is revealed as an orthodox Anglican theistic personalist whose ideas inspired Newman to write his Grammar of Assent Located in context Mansel s personal connections with leading Tory figures such as Lord Carnarvon and Benjamin Disraeli are explored Key controversies with Frederick Denison Maurice and John Stuart Mill are interpreted with reference to the party political elections of 1859 and 1865 Norman offers a vital vision of nineteenth century theology philosophy and politics The Age of Equipoise W L Burn, 2019-08-13 First published in 1964 The purpose of this title is to examine and describe certain aspects of English life and thought between 1852 and 1867 By exploring the lives of certain men and women the reader will be presented with an illustration of the actions and opinions of the time The book draws a contrast between mid Victorian England and the **Stalking the Subject** Carrie Rohman, 2009 Human and animal subjectivity converge in a historically unprecedented way within modernism as evolutionary theory imperialism antirationalism and psychoanalysis all grapple with the place of the human in relation to the animal Drawing on the thought of Jacques Derrida and Georges Bataille Carrie Rohman outlines the complex philosophical and ethical stakes involved in theorizing the animal in humanism including the difficulty in determining an ontological place for the animal the question of animal consciousness and language and the paradoxical status of the human as both a primate body and a human mind abstracting itself from the physical and material world Rohman then turns to the work of Joseph Conrad D H Lawrence H G Wells and Djuna Barnes authors who were deeply invested in the relationship between animality and identity The Island of Dr Moreau embodies a Darwinian nightmare of the evolutionary continuum The Croquet Player thematizes the dialectic between evolutionary theory and psychoanalysis and Women in Love St Mawr and Nightwood all refuse to project animality onto others inverting the traditional humanist position by valuing animal consciousness A novel treatment of the animal in literature Stalking the Subject provides vital perspective on modernism s most compelling intellectual and philosophical issues *The Comparative Reception of Darwinism* Thomas F. Glick, 1988-09-24 The majority of the chapters deal with the reception accorded Darwin s work in specific countries England the United States Germany France Russia the Netherlands

Spain Mexico and the Arab countries Several chapters however also investigate the response to Darwinism made by specific social circles such as social scientists in Russia and the United States

Independent Radicalism in Early Victorian Britain Michael J. Turner,2004-07-30 The reasons why people arise to express dissatisfaction with their present situation and how they imagine and work towards an alternative have enduring relevance The reform campaigns of 19th century Britain are of interest not only in their own right but also because of what they reveal about processes of political and social change This book examines the personal social political ideological and tactical components of radicalism in Britain between the 1820s and 1860s and casts new light on the meaning nature and reception of reform during this period The main avenues of inquiry are provided by the career of Thomas Perronet Thompson a prominent MP political economist and writer who helped to shape and articulate an independent radicalism which with its distinctive commitments outlook and identity has not previously been defined or explained By relating Thompson s career to wider developments and investigating the generation and impact of independent radicalism this book deepens our understanding of 19th century British reformers and clarifies the relationship between parliament and people and the extent to which decisions taken at the top were made in response to or in spite of pressure from below Turner s findings will be of interest not only to students of the past but also to observers of current and ongoing struggles between forces of conservatism and reform
