1940s House:

Consuming History Jerome de Groot, 2016-02-08 *Consuming History* examines how history works in contemporary popular culture. Analysing a wide range of cultural entities from computer games to daytime television it investigates the ways in which society consumes history and how a reading of this consumption can help us understand popular culture and issues of representation. In this second edition Jerome de Groot probes how museums have responded to the heritage debate and how new technologies from online game playing to internet genealogy have brought about a shift in access to history, discussing the often conflicted relationship between public and academic history and raising important questions about the theory and practice of history as a discipline. Fully revised throughout with up to date examples from sources such as *Wolf Hall*, *Game of Thrones* and *12 Years a Slave* this edition also includes new sections on the historical novel, gaming, social media and genealogy. It considers new ground breaking texts and media such as YouTube in addition to entities and practices such as re-enactment that have been underrepresented in historical discussion thus far. Engaging with a broad spectrum of source material and comparing the experiences of the UK, the USA, France and Germany as well as exploring more global trends *Consuming History* offers an essential path through the debates for readers interested in history, cultural studies and the media.

Big Brother J. Bignell, 2005-11-16 Jonathan Bignell presents a wide ranging analysis of the television phenomenon of the early twenty first century Reality TV exploring its cultural and political meanings explaining the genesis of the form and its relationship to contemporary television production and considering how it connects with and breaks away from factual and fictional conventions in television. Relationships with surveillance, celebrity and media culture are examined leading to an appraisal of the directions that television culture is taking in the new century. His highly readable style is accessible to readers at all levels of Culture and Media studies.

Taste of War Lizzie Collingham, 2012-03-29 A New York Times Notable Book of 2012. Food and in particular the lack of it was central to the experience of World War II. In this richly detailed and engaging history Lizzie Collingham establishes how control of food and its production is crucial to total war. How were the imperial ambitions of Germany and Japan ambitions which sowed the seeds of war informed by a desire for self sufficiency in food production? How was the outcome of the war affected by the decisions that the Allies and the Axis took over how to feed their troops? And how did the distinctive ideologies of the different combatant countries determine their attitudes towards those they had to feed? Tracing the interaction between food and strategy on both the military and home fronts this gripping original account demonstrates how the issue of access to food was a driving force within Nazi policy and contributed to the decision to murder hundreds of thousands of useless eaters in Europe. Focusing on both the winners and losers in the battle for food *The Taste of War* brings to light the striking fact that war related hunger and famine was not only caused by Nazi Germany and Imperial Japan but

was also the result of Allied mismanagement and neglect particularly in India Africa and China American dominance both during and after the war was not only a result of the United States immense industrial production but also of its abundance of food This book traces the establishment of a global pattern of food production and distribution and shows how the war subsequently promoted the pervasive influence of American food habits and tastes in the post war world A work of great scope *The Taste of War* connects the broad sweep of history to its intimate impact upon the lives of individuals Hamilton Wetland Restoration Project ,1999 **The 1940s House** John Malam,2001 The 1940s House Activity Book aims to be an engaging and inspiring approach to the history of the 1940s for children and about children with a wide range of activities through which they can learn about life in Britain during World War II The Old-house Journal ,2002 The MovieLand Directory ,2015-07-11 The Los Angeles area feels almost alive with movie history It is impossible to walk down any neighborhood block that didn't play host to movie history on some level From Chaplin walking Hollywood sidewalks in 1915 to the Three Stooges running down Culver City streets in 1930 to westerns filmed in the Valley in the 1950 s the area has been the background for thousands of films and home to millions of movie people Historical documents census records movie studio and institutional archives and personal writings have all been scoured in order to compile the most exhaustive and complete Hollywood address listing ever compiled *The Rock Houses of Minersville* Agnes Tolbert,1963 **Six Hundred Generations There** Alan D. The Greenwood Encyclopedia of Homes Through American History Thomas W. Paradis, 2008 **This Old House: Ask Norm** Norm Abram, 2001-09 Ask Norm Practical answers from America's most trusted remodeling expert responding to tough questions Housing Abstracts, 1996 **Governing the White House** Charles Eliot Walcott, Karen Marie Hult, 1995

Charles Walcott and Karen Hult maintain that the organization of the White House influences presidential performance much more than commonly thought and that organization theory is an essential tool for understanding that influence. Their book offers the first systematic application of organizational governance theory to the structures and operations of the White House Office. Using organizational theory to analyze what at times has been a rather ad hoc and disorganized office might seem quixotic. After all, the White House Office exists within a turbulent political environment that encourages expedient decision making. And every four to eight years it must be reinvented by presidents who have their own theories and preferences about how to organize a staff to serve their policy needs. But Walcott and Hult argue that White House staffs are not simply puppets of presidential preference and style. Yes, staff structures evolve primarily from presidents' strategic responses to external demands. But those structures in turn significantly influence how the executive branch perceives and responds to further demands. The first part of their book lays out the theoretical argument. The second examines White House outreach, congressional liaison, press relations, personnel selection, executive branch oversight, and interest group and intergovernmental liaison. The third focuses on White House handling of policy development and implementation. The fourth analyzes staff structures that facilitate the operation of the presidency itself, presidential writing and scheduling, staff management, and cabinet coordination. The book concludes by identifying general patterns in the emergency nature and stability of governance structures in the White House. Original and instructive, *Governing the White House* provides a much needed primer on the inner workings of the White House staff and will be an essential volume for anyone studying the presidency.
