**1949/1989** Clare Flanagan, Stuart Taberner, 2000 Papers from a conference held at the University of Bristol in 1998

**Beyond Boundaries** Andy Hollis, 2000 Despite the recent growth in university courses on European Studies and Cultural Studies and notwithstanding increasing public concern about questions of national identity within Europe there is currently little material available which explores the diversity of European identities specifically within the context of European literary and filmic culture In tackling ten novels six plays four films three short stories three books of travel writing and one diary covering fifteen nationalities in all the authors of this volume are seeking to fill this gap The twelve essays contain detailed textual analysis embedded within a framework of cultural theory whose most celebrated reference points include Freud Edward Said Benedict Anderson and Homi Bhabha This volume is aimed not only at specialists in identity studies and those concerned with the artistic landscape of a wider Europe including Russia the Balkans Finland and Turkey It will also interest those preoccupied with building an imaginative and imagined identity for Europe an identity which might help to sustain it as a political entity and lend it greater popular legitimacy than it enjoys at present **Last Features** Reinhild

Steingröver, 2014 Drawing on archival research and interviews with directors writers and editors Last Features is the story of forgotten films made during the time of German unification **Searching for a New German Identity** Theresa M.

Ganter, 2008 Theresa M Ganter investigates Heiner Muller s use of the Geschichtsdrama as a tool in his search for post World War II and post reunification German identity in Germania Tod in Berlin 1956 1971 and Germania 3 Gespenster am Toten Mann 1996 respectively **The Modern Restoration** Stephen Parker, Peter Davies, Matthew Philpotts, 2012-04-17 This

book seeks to move twentieth century German literary history away from its stubbornly persistent reliance on the political turning points of 1933 and 1945 In the first part of the book the authors analyze a synchronic corpus of literary journals identifying a restorative aesthetic mood in the years 1930 1960 which persists across political date boundaries In the second part the careers of five writers are considered diachronically against this prevailing restorative climate Gottfried Benn Johannes R Becher Bertolt Brecht G nter Eich and Peter Huchel Combining these two approaches the authors show that a fresh perspective that challenges established literary historical periodisations can shed light on the common cultural and aesthetic ground shared by writers editors and critics across the ideological divides of the era Representing East

Germany Since Unification Paul Cooke, 2005-08 Cooke maps out the problematic path of German national identity as it struggles to deal with the legacy of division Drawing on postcolonial theory he argues that the East has been defined as the West s exotic other and shows how this stereotype has been vigorously challenged Current Contents Institute for

Scientific Information (Philadelphia), 2002 Ossi Wessi Donald Backman, Aida Sakalauskaite, 2008 Ossi Wessi includes the proceedings of the fourteenth annual Interdisciplinary German Studies Conference at the University of California Berkeley 2006 which explored issues surrounding the Berlin Wall both pre and post reunification in language literature and visual

media The collected articles discuss the situation of the Berlin Wall describing its portrayal as both a dividing and uniting boundary and often discussing the continued existence of the Wall in the minds of Germany's citizens The multi disciplinary range of approaches contained in this volume reveals how diverse the portrayals of the history of the Wall have been as well as how controversial the division of Germany remains today Topics covered in this collection include Wende Literature and film linguistic changes and attitudes since 1989 the complicated history of the Neo Nazis and the visual arts Although *Ossi Wessi* is by no means a comprehensive reference work each of its essays serve as a though provoking springboard for further research
