The 1950s Scrapbook, 2004 Covers every facet of the 1950s from rationing to rock and **Extreme Collecting** Graeme Were, J. C. H. King, 2012-03-01 By exploring the processes of collecting which challenge the bounds of normally acceptable practice this book debates the practice of collecting difficult objects from a historical and contemporary perspective and discusses the acquisition of objects related to war and genocide and those purchased from the internet as well as considering human remains mass produced objects and illicitly traded antiquities The aim is to apply a critical approach to the rigidity of museums in maintaining essentially nineteenth century ideas of collecting and to move towards identifying priorities for collection policies in museums which are inclusive of acquiring difficult objects Much of the book engages with the question of the limits to the practice of collecting as a means to think through the implementation of new strategies **Vintage Pin Up Ephemera Collection** Professional Ephemera, Scraft Key Edition, 2020-11-11 Enjoy this book and have a fantastic time using it Near 50 Pin Up ephemera elements from the mid century Include vintage lady patterned background sheets in a variety of styles See some images from the cover Elements vintage woman Retro Illustration 50s Image 1950s Lifestyle Retro Pin Up You can use for Scrapbook page Art Projects Junk Journals Mixed media collages Papercraft projects Smash Journal For Notebook The possibilities are endless Multiple decorative items In the book you will find **Family and Community Life of Older People** Miriam Bernard, Jim Ogg, Judith and Phillips, Chris Phillipson, 2002-09-11 Family life has changed rapidly over the past fifty years and the number of people living longer increases year on year Family and Community Life of Older People revisits three areas Bethnal Green in London Wolverhampton in the Midlands and Woodford in Essex which were the subject of classic studies in the late 1940s and 1950s and explores changes to the family and community lives of older people The book examines issues such as changes in household composition changes in the geographical proximity of kin and relatives the extent and type of help provided by the family contact and relationships with neighbours relationships with friends involvement in social and leisure activities experiences of minority ethnic groups These questions are explored through a unique set of data including census material and survey data from interviews with over 600 older people A key finding is that over the past 50 years we have moved from an old age experienced within the context of the family group to one shaped by personal communities in which friends may feature as significantly as immediate kin and relatives Family and Community Life of Older People is a major contribution to the sociology of the family of ageing and of urban life and points up the social policy issues for an ageing society **This Is Rhythm** Gayle F. Wald, 2025-04-10 The remarkable life story of Ella Jenkins The First Lady of Children's Music Ella Jenkins was one of the most influential musicians of the twentieth century Her songs You'll Sing a Song and I'll Sing a Song and Who Fed the Chickens are classics in the world of children's music In a career spanning more than sixty years she recorded forty albums won a lifetime achievement Grammy and became the best selling individual artist in the history of Smithsonian Folkways Records the independent label that played a

significant role in the 1960s folk revival movement and introduced listeners to Woody Guthrie and Pete Seeger. During her remarkable career, Jenkins joined forces with twentieth-century luminaries such as Odetta, Big Bill Broonzy, Armando Peraza, Bayard Rustin, and Fred Rogers. Despite her wide-reaching influence on children's music, Ella Jenkins's sonic civil rights activism isn't widely known today. Based on dozens of interviews and access to Ella Jenkins's personal archives, Gayle F. Wald's *This Is Rhythm* shares how Jenkins, a rhythm specialist with no formal musical training, became the most prolific and significant American children's musician of the twentieth century, creating a beloved catalog of songs grounded in values of community building, antiracism, and cultural pluralism. Wald traces how the daughter of southern migrants translated the music of her own Black girlhood on the South Side of Chicago into a form of civil rights activism, a musical education that empowered children by introducing them to Black history, African diasporic rhythms, and a participatory, community-centered approach to music. Wald also discusses how, beginning in 1961, Jenkins built a life with a female partner who supported her materially and emotionally. Although Jenkins did not talk publicly about her sixty-three-year relationship, she opened up to Wald, offering insight into how a private Black woman in the public eye negotiated sexuality in an era before gay and lesbian liberation movements. Throughout her career, her innovative music found its way into thousands of community centers, classrooms, and concert venues, and her call-and-response method has influenced and empowered generations of children and adults. A beautifully written tribute to Ella Jenkins's legacy, this biography illustrates her impact on children's music and expands our understanding of folk music's relationship with social justice. Jenkins used music to build a new world in which children and adults are encouraged to listen to each other's distinct rhythms.

Illustration: A Theoretical and Contextual Perspective Alan Male, 2007-07-25. Successful forward-thinking illustrators no longer operate the way many did and still do as merely colouring in technicians receiving briefs that are heavily directed and prescribed regarding content and overall visual concept. Nowadays, illustrators need to be educated, socially and culturally aware communicators having knowledge, understanding, and insight regarding the context within which they are working, the subject matter that they are engaged with, and to be able to work within the parameters and needs of the marketplace and target audiences. They need to utilise a breadth of intellectual and practical skills, some that might once be regarded as transferable from other disciplines but are now considered essential if the illustrator has ambitions to transcend the basic role of commissioned hack. This book introduces the concept of the illustrator as a specialist or authority on a particular subject or as an originator of either fiction and/or non-fiction material. Examples include effective and creative written communication and authorship, academic research, art direction, and design management. The book focuses on illustration education and theory, in particular the latter stages of undergraduate development and postgraduate study and research, such as theoretical and intellectual processes, research, and visual language. Definitions and philosophies of what illustration is are also featured together with a relevant historical overview.
