optimism is tempered particularly in his science fiction works and he clearly shares the sense of dread of science and technology gone out of control that runs through Victorian and post Victorian British thought with mad scientists and mass destruction seemingly lying in wait for unwary humanity Wells is often referred to as one of The Fathers of Science Fiction and science fiction today might look very different without Wells contributions *The Country of the Blind and Other Stories (the Selected Stories of H. G. Wells)* H. G. Wells,2012 The early short stories of an essential 20th century literary personage Herbert George Wells was perhaps best known as the author of such classic works of science fiction as The Time Machine and War of the Worlds But it was in his short stories written when he was a young man embarking on a literary career that he first explored the enormous potential of the scientific discoveries of the day He described his stories as a miscellany of inventions yet his enthusiasm for science was tempered by an awareness of its horrifying destructive powers and the threat it could pose to the human race A consummate storyteller he made fantastic creatures and machines entirely believable and by placing ordinary men and women in extraordinary situations he explored with humor what it means to be alive in a century of rapid scientific progress For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators **The Best of H. G Wells** Herbert George Wells,2017 **Index to Short Stories** ,1929
