American Invasions Rocky M Mirza Ph D, 2010-08 American Invasions Canada to Afghanistan 1775 to 2010 is a thought provoking analysis of the reasons for American invasions and warmongering over the last two centuries Contrary to the views expressed by the Western media and Western historians the American Empire is not a force for the promotion of free thinking and democracy but instead a force for imperial conquests and imposed dictatorships through the use of a military industrial complex fed by the American Empire outspending the rest of the world combined on weapons of mass destruction The American Empire has used and will continue to use the most sophisticated weapons from nuclear bombs to bunker busting bombs to land mines to chemical and biological weapons on defenseless men women and children to feed its insatiable appetite for warmongering and imperial expansion It combines military bases around the world with military prisons used for torture and extraction of information Its navy patrols every corner of the globe and its planes can rain down bombs from the heavens on every civilian on the planet

Mobilising the Masses Matthew Cunningham, 2022-04-05 The radical right has gained considerable ground in the twenty first century From Brexit to Bolsonaro and Tea Partiers to Trump many of these diverse manifestations of right wing populism share a desire to co opt or supplant the mainstream parties that have traditionally held sway over the centre right It is now more important than ever to understand similar moments in Australian and New Zealand history This book concerns one such moment the Great Depression and the explosion of large populist conservative groups that accompanied the crisis These citizens movements as they described themselves sprang into being virtually overnight and amassed a combined membership in the hundreds of

thousands They staunchly opposed party politicians and political parties for their supposed inaction and infighting Whether left or right it did not matter They wanted to use their vast numbers to pressure their governments into enacting proposals they believed were in the national interest a smaller more streamlined government where Members of Parliament were free to act according to their conscience rather than their party allegiance At the same time the movements prescribed antidotes for their nations economic ill health that were often radical and occasionally anti democratic At the height of their power they threatened to disrupt or outright replace the centre right political parties of the time particularly in Australia At a time when fascism and right wing authoritarianism were on the march internationally the future shape of conservative politics was at stake
