Reading the Mind of God A.E.L. Davis, J. V. Field, T. J. Mahoney, 2024-11-19 This volume provides a wide ranging introduction to Kepler s work with essays on his religion his cosmological theories his work in astronomy astrology optics and mathematics and his interactions with Tycho Brahe and Galileo Galilei Kepler is a major figure in the history of science His laws of planetary motion overthrew a tradition going back as far as the ancient Greeks of constructing the paths of planets by combinations of circles and the derivation of the laws was revolutionary in the way it relied upon detailed agreement with observations Moreover the laws explicitly relate the motion and path of each planet to the Sun Thus when the tables that Kepler based upon the laws proved to be highly reliable over many decades this played a crucial part in making heliocentrism acceptable And many years after Kepler s death the laws themselves played an important part in Newton s derivation of the inverse square law of gravitation in his Principia 1687 In this respect Kepler can look modern But his work is grounded in his religious belief that the Universe is the visible expression of the nature of the God who created it This book whose chapters are written by leading scholars is primarily addressed to undergraduate and graduate students of science and the history of science but will also appeal to the general reader with an interest in the history of science

Jack, 1999-05-01 The language themes and imagery of the Bible have been rewritten into texts across time In the Revelation of John the Hebrew Bible echoes and is reinvented just as in James Hogg s The Private Memoirs and Confessions of a Justified Sinner 1824 many explicit and implicit readings and interpretations of the Bible are offered In Texts Reading Texts these readings of the Bible and the ways in which Revelation and Hogg s Confessions have themselves been read are considered from the two postmodern perspectives of marginalization and deconstruction By reading the two seemingly unrelated texts side by side from these perspectives traditional readings of them both are disturbed and challenged
