these are what are referred to as niches With the help of a keyword analysis tool like Google Adword s keyword tool for example you will get the following terms for the dog topic Dog breeds Dog grooming Dog supplies Dog training These are still quite broad topics to be considered a niche though if you want to build a big authority website then it might be all right to go for any of them However if you want a more targeted niche you can continue to dig deeper into each of these topics So if you are interested in dog training then do a keyword search on it You will likely get the following topics Acoma dog training Adult dog training Adult dog potty training Aggressive dog behavior training And so on If you think any of the topics on this list appeals to you based on factors such as high monthly search volume and low competition then you can proceed to find a list of keywords for this niche that you can create content on You should choose a niche that has a large list of keywords or related keywords so that you can build more content for your site The bigger your site the better When you have chosen your niche the next step is to start building your website and deciding on how you intend to monetize it
