## **Between Generations:**

Generations Jean M. Twenge, 2025-01-14 A groundbreaking revelatory portrait of the six generations that currently live in the United States and how they connect conflict and compete with one another from the acclaimed author of *Generation Me* and *iGen* Amazon.com

Justice Across Generations Ryan Reed, Christopher R. Hallenbrook, 2025-10-28 This book presents a contractualist theory of intergenerational justice that avoids deficiencies in existing IGJ theories e.g. the non-identity problem and the under-defining of generations. The inability of social contract theory to provide a thorough accounting of justice between generations has been called an embarrassment and rightly so. That said, serious attempts have been made from a variety of contract perspectives to rectify the approach's shortcomings in the area of intergenerational justice. One of the most prominent contract theorists, John Rawls, attempted to address justice between generations in his theory via his just savings principle, but both versions of it were met with stinging criticism. As the climate crisis among other challenges presses the issue of justice for future generations, the authors believe that intergenerational justice is something that social contract theory should and can address. Specifically, they present a Rawlsian approach that begins with a clarified understanding of what is meant by generations and proceeds from there to modify generational knowledge constraints in the original position. The authors then draw upon the concept of indirect reciprocity to round out an argument for a Rawlsian principle of justice between generations: intergenerational fair equality of opportunity. They then apply their intergenerational justice theory to five major public policy areas.

*Employer Attractiveness from the Perspective of Different Generations* Katharina Sachse, Claus-Peter Heinrich, Silke F. Heiss, Sandra Sülzenbrück, 2025-12-29 The discussion about generational differences in the workplace is omnipresent, often shaped by clichés and generalizations. This book provides a well-founded, empirically supported analysis of whether expectations for attractive employers truly differ across generations. The findings reveal much of what is considered generation-specific is actually a reflection of broader societal change. Based on a large-scale survey of employees from four generations, key factors are identified that make employers attractive regardless of employee age. The book offers practical recommendations for sustainable human resource management beyond generational myths.

Sovereignty Across Generations Alessandro Ferrara, 2023 By taking new steps in updating and revisiting political liberalism, this book reconstructs Rawls's implicit view of constituent power beyond the pages dedicated to it in *Political Liberalism* and brings that view into conversation with major constitutional theories of the twentieth century.

Learning across Generations in Europe Bernhard Schmidt Hertha, Sabina Jelenc Krašovec, Marvin Formosa, 2014-11-28 Learning across generations in Europe. Contemporary issues in older adult education constitutes an important book in the emergent field of study of older adult learning. The book gives a clear and wide overview on the different concepts, ideas, and meanings related to older adults' education, learning, and intergenerational learning through strong theoretical standpoints, empirical research, and policy directions. The field of older adult education has expanded immensely in recent years since it raised questions that

are connected to a rapidly ageing society in very turbulent times of economic and social changes in Europe This book provides the basis for an in depth analysis of the understandings and interpretations of education and learning in later life rethinking the development of different approaches for education of older adults as well as diverse research and evaluation of different forms of older adults education and learning It brings together both orthodox approaches to educational gerontology and older adult learning on important emerging issues faced by educators around the globe The chapters address the contemporary differentiated discussion on diverse phenomena labelled ranging from intergenerational learning to older men learning providing robust impulses for the development of further theoretical and empirical research on older adult and intergenerational learning It is the editors intention that this collection of papers acts as a persuasive argument for formal and non formal learning agencies to open more doors for older adults Bernhard Schmidt Hertha Ph D is Full Professor of educational science with focus on continuing education and further vocational training at Institute of Education University of Tuebingen His research and writings address the topics of adult education intergenerational learning informal adult learning and higher education Sabina Jelenc Kra ovec Ph D is Associate Professor of adult education within the Department of Educational Sciences Faculty of Arts University of Ljubljana Her research and writings focus on the education of vulnerable adults and more recently on older adult learning in the community and non formal contexts Marvin Formosa Ph D is co ordinator of the Gerontology Unit Faculty for Social Wellbeing University of Malta Recent publications include Lifelong Learning in Later Life A Handbook on Older Adult Learning with Brian Findsen 2011 and Population Ageing in Malta Multidisciplinary Perspectives with Charles Scerri 2015 *The Generation of 1914* Robert WOHL, Robert Wohl, 2009-06-30 The generation of 1914 holds a special place in memory affection and myth In this irresistible and moving book Robert Wohl rescues it from the shadows of legend and brings it fully into the realm of understanding He tells the story of the young men the middle class elite of five European countries France Germany England Spain and Italy to recreate the generational consciousness that united them as well as the unique national experience that made them different These were men born at the end of the nineteenth century when the world of reason was disintegrating into a world of irrationality They were destined to rule but their lives were interrupted by the greatest of wars leaving them searching for identity and historical continuity Wohl recaptures this search through novels poems autobiographies memoirs sociological treatises philosophical essays university lectures political speeches conversations when recorded letters personal notebooks and newspaper articles His book is a brilliant study of European mentalities both collective and individual Probing behind ideas to find the experience that inspired them Wohl illuminates in unexpected ways the origins of World War I and its impact on its participants His exploration of the consciousness of generational unity and the power of the generational bond enables him to place in a novel context the spread of pessimism and despair the waning of liberal and humanitarian values the rise of Communist and Fascist movements and the sudden eruption of violence in Europe s progressive countries between the two
