Decentering the Nation Jesús A.

Ramos-Kittrell, 2019-12-12 winner of the 2021 Ellen Koskoff Edited Volume Prize *Decentering the Nation* Music Mexicanidad and Globalization considers how neoliberal capitalism has upset the symbolic economy of Mexican cultural discourse and how this phenomenon touches on a broader crisis of representation affecting the nation state in globalization This book argues that while mexicanidad emerged in the early twentieth century as a cultural trope about national origins culture and history it was nonetheless a trope steeped in otherization and used by nation states Mexico and the United States to

legitimize narratives of cultural and socioeconomic development stemming out of nationalist political projects that are now under strain Using music as a phenomenological platform of inquiry contributors to this book focus on a critique of mexicanidad in terms of the cultural processes through which people contest ideas about race gender and sexuality reframe ideas of memory history and belonging and negotiate the experiences of dislocation that affect them The volume urges readers to find points of resonance in its chapters and thus interrogate the asymmetrical ways in which power traverses their own historical experience In light of the crisis in representation that currently affects the nation state as a political unit in globalization such resonance is critical to make culture an arena of social collusion where alliances can restore the fiber of civil society and contest the pressures that have made disenfranchisement one of the most alarming features characterizing the complex relationships between the state and the neoliberal corporate system that seeks to regulate it Scholars of history international relations cultural anthropology Latin American studies queer and gender studies music and cultural studies will find this book particularly useful

Sexuality at the Fin de Siècle Peter Maxwell Cryle, Christopher E. Forth, 2008 It has come to be widely accepted that sexuality as we know it took shape at the end of the nineteenth century This is when Krafft Ebing asserted that sexual feeling is really the root of all ethics and no doubt of aestheticism and religion and Havelock Ellis declared sexuality to be the central problem of life Yet however self evident Ellis s claim about sexuality might seem the act of placing something at the center is the consequence of insistent cultural work that engages with competing views about bodies and indeed about the life of society This volume examines how this work was carried out and what resulted from such efforts

BOOK JACKET **Decentering Relational Theory** Lewis Aron, Sue Grand, Joyce A. Slochower, 2018-06-13

Decentering Relational Theory A Comparative Critique invites relational theorists to contemplate the influence overlaps and relationship between relational theory and other perspectives Self critique was the focus of *De Idealizing Relational Theory* Decentering Relational Theory pushes critique in a different direction by explicitly engaging the questions of theoretical and clinical overlap and lack thereof with writers from other psychoanalytic orientations In part this comparison involves critique but in part it does not It addresses issues of influence both bidirectional and unidimensional Our authors took up this challenge in different ways Like our authors in *De Idealizing* writers who contributed to *Decentering* were asked to move beyond their own perspective without stereotyping alternate perspectives Instead they seek to expand our understanding of the convergences and divergences between different relational perspectives and those of other theories Whether to locate relational thought in a broader theoretical envelope make links to other theories address critiques leveled at us or push relational thinking forward our contributors thought outside the box The kinds of comparisons they were asked to make were challenging We are grateful to them for having taken up this challenge *Decentering Relational Theory A Comparative Critique* will appeal to psychoanalysts and psychoanalytic psychotherapists across the theoretical spectrum
