## De Facing Power:

De-Facing Power Clarissa Rile Hayward,2000-09-14 In this major contribution to the power debate Clarissa Rile Hayward challenges the prevailing view which treats power as something powerful people have and use Rather than seeing it as having a face she considers power as a complex network of social boundaries norms identities institutions which define both the field of action and the individual s freedom within it for the powerful and powerless alike Hayward suggests that the critical analysis of power relations should focus on the ways these relationships affect people s capacities to help shape the institutions and practices which govern their lives Using a detailed comparative analysis of the relationships within two ethnically diverse educational settings one in a low income predominantly African American urban school the other in an affluent predominantly white suburban school this book develops a compelling account of the concept of power in terms of networks of practices and relations
