The Ambivalent Internet Whitney Phillips,Ryan M. Milner,2018-03-15 This book explores the weird and mean and in between that characterize everyday expression online from absurdist photoshops to antagonistic Twitter hashtags to deceptive identity play Whitney Phillips and Ryan M Milner focus especially on the ambivalence of this expression the fact that it is too unwieldy too variable across cases to be essentialized as old or new vernacular or institutional generative or destructive Online expression is instead all of the above This ambivalence the authors argue hinges on available digital tools That said there is nothing unexpected or surprising about even the strangest online behavior Ours is a brave new world and there is nothing new under the sun a point necessary to understanding not just that online spaces are rife with oddity mischief and antagonism but why these behaviors matter The Ambivalent Internet is essential reading for students and scholars of digital media and related fields across the humanities as well as anyone interested in mediated culture and expression

Haruki Murakami and the Search for Self-Therapy Jonathan Dil,2022-02-24 Haruki Murakami a global literary phenomenon has said that he started writing fiction as a means of self therapy What he has not discussed as much is what he needed self therapy for This book argues that by understanding more about why Murakami writes and by linking this with the question of how he writes readers can better understand what he writes Murakami s fiction in other words can be read as a search for self therapy In five chapters which explore Murakami s fourteen novels to date this book argues that there are four prominent therapeutic threads woven through Murakami s fiction that can be traced back to his personal traumas most

notably Murakami's falling out with his late father and the death of a former girlfriend and which have also transcended them in significant ways as they have been transformed into literary fiction. The first thread looks at the way melancholia must be worked through for mourning to occur and healing to happen; the second thread looks at how symbolic acts of sacrifice can help to heal intergenerational trauma; the third thread looks at the way people with avoidant attachment styles can begin to open themselves up to love again; the fourth thread looks at how individuation can manifest as a response to nihilism. Meticulously researched and written with sensitivity, the result is a sophisticated exploration of Murakami's published novels as an evolving therapeutic project that will be of great value to all scholars of Japanese literature and culture.

The Short Story in South Africa Rebecca Fasselt, Corinne Sandwith, 2022-03-24. This book considers the key critical interventions on short story writing in South Africa written in English since the year 2000. The short story genre, whilst often marginalised in national literary canons, has been central to the trajectory of literary history in South Africa. In recent years, the short story has undergone a significant renaissance with new collections and young writers making a significant impact on the contemporary literary scene and subgenres such as speculative fiction, erotic fiction, flash fiction, and queer fiction expanding rapidly in popularity. This book examines the role of the short story genre in reflecting or championing new developments in South African writing and the ways in which traditional boundaries and definitions of the short story in South Africa have been reimagined in the present. Drawing together a range of critical interventions including scholarly articles, interviews, and personal reflective pieces, the volume traces some of the aesthetic and thematic continuities and discontinuities in the genre and sheds new light on questions of literary form. Finally, the book considers the place of the short story in twenty-first century writing and interrogates the ways in which the short story form may contribute to or recast ideas of the post-apartheid or post-transitional. The perfect guide to contemporary short story writing in South Africa, this book will be essential reading for researchers of African literature.

Culture in Action Stephen Hester, Peter Eglin, 1997. This collection of new studies in ethnomethodology addresses sociology's classical questions by developing that strand of ethnomethodological inquiry dealing with membership categorization. This book provides detailed studies of members' use of membership categories across various settings, from the O. J. Simpson trial via TV commercials and news headlines to school staff and referral meetings. The studies show that category use is occasional; that culture is always internal to action; accordingly, sociology's key theoretical problems and substantive areas are re-specified in terms of members' methods of membership categorization. This is the first collection of original unpublished studies by internationally renowned practitioners of ethnomethodology of members' uses of the descriptive resources of language to describe persons. Co-published with The International Institute for Ethnomethodology and Conversation Analysis.

Happy Cruelty Day! Bob Powers, 2006-12-26. Beginning on January 1, the book features 365 new holidays, each accompanied by a short story explaining the day you woke up in and how to celebrate it.
