income BUT only work 3 5 hours per week to do it and that s just to drive traffic The rest is totally automated Join me to learn how My Method is NOT about going around trying to find the best product on Aliexpress Ebay Amazon etc they work of course and I do use them but this method is about a drop shipper NO ONE is using to make the entire process automated How many people s courses have you bought online that can say that I love passive income and will show you exactly how I do it None of the following are needed No Design skills No Programming or Coding No Technical Madness No Prior online experience No full time hours No Inventory is ever needed at your house EVER Yes AUTOMATED Let s say you sell an item for 35 this may seem small and it is but just think if you made only 10 sales per day That is 350 per day That is over 10 000 in profit every single month Now all the sudden that 35 is looking pretty good right But the truth is you won t have to have 10 orders to make that much because you will have other products in your store Who goes to the store and just buys 1 item right So let s say your average sale gets you around 70 profit Now you only need 5 sales a day to make 10 000 a month in profit Seriously 5 sales a day and this is passive stuff Of course that isn t the max that you can do No one is stopping you from doing 10 sales a day or 50 sales a day My method will fill your store with hundreds and hundreds of unique custom products within minutes the more things you have in your store the more you will sell the higher your average checkout will be that is the truth You want everything you do online to be hands free automated as possible You do NOT want to spend 60 hours a week uploading pictures setting prices created pages in your store finding things to sell handling sales shipping product That s why you NEED my course to show you how I automate the entire process PLUS I am going to show you a totally unique and super cheap way to drive traffic to your store We are getting a 400% ROI with this traffic It s an easy method to set up and you could be running with it by tonight So Let s Recap I am going to show you how to set up a totally automated drop shipping store Plus you are going to learn how to drive traffic to your store Everything is covered to get you up and running within hours All that s left to do is hit the buy button and get started TODAY

Dropshipping Shopify E-commerce Tim Murphy, 2021-02-03 The ultimate aim of every business is to maximize profits In order to get the most out of the market a business is expected to offer quality products and services to the consumers it serves The secret for satisfying the utility of consumers is creating a deep connection with them to understand their interests and how you can enhance your business Also you must present your products services in the market in a way that is appealing This entails the use of various marketing concepts and aligning your strategies with the relevant trends in your industry When it comes to earning an income online in 2021 and beyond there is a need to understand how to drive traffic to your website in a cheap efficient and consistent manner It is indisputable that drop shipping has become the mainstay for a large section of e commerce It serves as your home base starting point and customers destination for you Your entire brand on e commerce can rests on your drop shipping store You will log into it every day to check the trends on the visits of all your important audiences to try and turn them into paying customers It is important to learn how to maximize value for your store by marketing on social media It is an effective way of reaching a wide audience easily considering that more than a third of the total global population is on social media It is also a sure and efficient manner of turning the audience into loyal customers

because it encourages engagement The fact that social media allows for a two way mode of communication makes it easy for consumers to converse with the brands they are interested in Perhaps the best thing about social media promotion is that it provides a level playing field for small medium and large enterprises The same audience that a large business can access is the same that a start up business can access Notwithstanding it doesn't take up a huge budget to create a large number of social media fans in a short time This forms the confidence that you can make it on social media even if you are a beginner However how well it works for your business depends on the efforts you put into it If you have tried before and failed you have probably not followed the best tactics there are to grow your brand on social media Despite social media marketing being among the greatest phenomena in the digital era some marketers are not able to achieve their social media marketing goals It takes careful planning and the use of effective strategies to make the best use of social media and grow your brand
