Kingship and the Gods Henri Frankfort, 1978-07-15 This classic study clearly establishes a fundamental difference in viewpoint between the peoples of ancient Egypt and Mesopotamia By examining the forms of kingship which evolved in the two countries Frankfort discovered that beneath resemblances fostered by similar cultural growth and geographical location lay differences based partly upon the natural conditions under which each society developed The river flood which annually renewed life in the Nile Valley gave Egyptians a cheerful confidence in the permanence of established things and faith in life after death Their Mesopotamian contemporaries however viewed anxiously the harsh hostile workings of nature Frank s superb work first published in 1948 and now supplemented with a preface by Samuel Noah Kramer demonstrates how the Egyptian and Mesopotamian attitudes toward nature related to their concept of kingship In both countries the people regarded the king as their mediator with the gods but in Mesopotamia the king was only the foremost citizen while in Egypt the ruler was a divine descendant of the gods and the earthly representative of the God Horus

The Writing of Gods Racheli Shalomi-Hen, 2006 This book outlines the development of the divine classifiers in the Egyptian script system from the beginning of writing to the end of the Old Kingdom The first part discusses the falcon on the standard and the ways in which ancient Egyptian writing system expressed the idea of divine kingship The seated bearded man is the focus of the second part in which the author follows the sign from its first appearance as a classifier of foreign peoples to its identification with the god Osiris The third part is dedicated to divine markers and the structure of the divine

Gods Priests & Men Lloyd,2012-11-12 First Published in 1998 This volume brings together for the first time in a single volume the highly significant works on ancient Egyptian religion by Aylward Manley Blackman 1883 1956 Blackman s knowledge of Egyptian religion was unrivalled He was best known for his series of studies on Egyptian religion which have long been regarded as essential reading in the subject and which forms the content of the present collection Unusually Blackman did not publish his writings in book form but preferred to place them in a wide range of publications that are extremely difficult to obtain Blackman s studies on Egyptian religious belief and particularly religious practice focus on areas of fundamental concern and are models of meticulous sympathetic and penetrating scholarship They should remain required reading for all students of Egyptian religion well into the next century All those with an interest in the subject should welcome this volume which makes Blackman s writings accessible in a convenient form A select bibliography provides an update and key to more recent work on topics discussed by Blackman
