Babel Guide To Italian Fiction In Translation:

The Babel Guide to Italian Fiction (in English Translation) Ray Keenoy,Fiorenza Conte,1995 The Babel guide has 150 original reviews of books by Italian authors available in English Each review provides a kind of trailer for the work with an extract as a taster It includes a database of Italian fiction translated into English since 1945 with original titles and current prices This is the first in a series of illustrated guides written in a lively and accessible style It aims to provide potential readers with an idea of whether a book will suit their own tastes *The Oxford Guide to Literature in English Translation* Peter France,2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil s Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators **Twentieth-century Italian Literature in English Translation** Robin Healey,1998-01-01 This bibliography lists English language translations of twentieth century Italian literature published chiefly in book form between 1929 and 1997 encompassing fiction poetry plays screenplays librettos journals and diaries and correspondence The Oxford Guide to Library Research Thomas Mann,2015 The information world has undergone drastic changes since the publication of the 3rd edition of The Oxford Guide to Library Research in 2005 and Thomas Mann a veteran reference librarian at the Library of Congress has extensively revised his text to reflect those changes This book will answer two basic questions First what is the extent of the significant research resources you will you miss if you confine your research entirely or even primarily to sources available on the open Internet Second if you are trying to get a reasonably good overview of the literature on a particular topic rather than just something quickly on it what are the

several alternative methods of subject searching which are not available on the Web that are usually much more efficient for that purpose than typing keywords into a blank search box with the results displayed by relevance ranking computer algorithms This book shows researchers how to do comprehensive research on any topic It explains the variety of search mechanisms available so that the researcher can have the reasonable confidence that s he has not overlooked something important This includes not just lists of resources but discussions of the ways to search within them how to find the best search terms how to combine the terms and how to make the databases and other sources show relevant material even when you don t know how to specify the best search terms in advance The book s overall structuring by nine methods of searching that are applicable in any subject area rather than by subjects or by types of literature is unique among guides to research Also unique is the range and variety of concrete examples of what to do and of what not to do The book is not about the Internet it is about the best alternatives to the Internet the sources that are not on the open Web to begin with that can be found only through research libraries and that are more than ever necessary for any kind of substantive scholarly research More than any other research guide available this book directly addresses and provides solutions to the serious problems outlined in recent studies documenting the profound lack of research skills possessed by today s digital natives **Italian Literature since 1900 in English Translation** Robin Healey,2019-03-14 Providing the most complete record possible of texts by Italian writers active after 1900 this annotated bibliography covers over 4 800 distinct editions of writings by some 1 700 Italian authors Many entries are accompanied by useful notes that provide information on the authors works translators and the reception of the translations This book includes the works of Pirandello Calvino Eco and more recently Andrea Camilleri and Valerio Manfredi Together with Robin Healey s Italian Literature before 1900 in English Translation also published by University of Toronto Press in 2011 this volume makes comprehensive information on translations from Italian accessible for schools libraries and those interested in comparative literature The Babel Guide to French Fiction in English Translation Ray Keenoy,Laurence Laluyaux,Gareth Stanton,1996 The Babel guide has 150 original reviews of books by over 100 authors from France Quebec North and West Africa Belgium and Switzerland Each review provides a kind of trailer for the work and is followed by an excerpt as a taster It introduces big names of French literature such as Sartre Camus Colette and Duras and a collection of less familiar writers such as Driss Chraibi and Madeline Bourdouxhe It includes a database of French fiction translated in the UK since 1950 with original titles and current prices This is the third in a series of accessible and illustrated guides to world fiction available in English translation aimed at journalists academics teachers and the ordinary reader The reviews let potential readers have a idea as to whether a work might suit them **The Writer's Handbook** ,2001 **Writer's Handbook 2000** Barry Turner,1999 Over 500 entries tap every vein of opportunity in book and magazine publishing newspapers poetry radio theatre TV video and film as well as giving information on agents prizes writers circles associations festivals and much much more **The Writer's Handbook 1998** Barry Turner,1997 *The*
