## **Back In America:**

**"Taking Back America"** Thomas R. Meinders,2011-04-11 When the federal government starts to provide the American citizens with facts about what they are doing instead of making decisions that they believe are best for the common folk The pathetic part is that the President and Congress for the most part do not listen to what the American citizen is telling them When we make every member accountable we will be starting the process of Taking Back America The citizens of the United States need to express our opinions to the representatives of our local districts and make sure that they understand we will not be voting for them in 2012 if they do not start acting in the best interest of the people Could it be that the reason that the main stream media is always backing the Democrats and the unions is because they are union shops That is correct The main stream media are union shops and therefore are usually biased in their reporting in favor of the Democrats and the unions This sure explains some of their very biased articles *Mark Williams. innovation the problems with the patent system and the prospects for America's future America loves innovation and the can do spirit that made this country what it is a world leader in self government industry and technology and pop culture Everything about America has at one point or another been an experiment and a leap of faith And one such experiment upon which all others depend for success is the US Patent System Why Has America Stopped Inventing takes a close look at why this experiment appears to be failing and why America has all but stopped inventing Our belief that we are the most innovative people on earth is mistaken Statistics show that today we invent less than half of what our counterparts did a hundred and fifty years ago Where are the groundbreaking inventions comparable to those from the Industrial Revolution Why have we been using the same mode of transportation for over a century Why are we giving trillions to hostile foreign nations for imported oil when we have the talent to solve the nation's energy crisis We don't have these desperately needed technologies because regular Americans have given up on inventing This book explains why comparing the experiences of America's most successful nineteenth century inventors with those of today and sharing fascinating historical anecdotes Jefferson refusing to waste any more weekends examining patent applications Whitney being robbed of his fortune while the South's wealth exploded the patent models that kept British soldiers from burning Washington's last standing federal building the formation of Lincoln's cabinet and Selden crippling the entire US auto industry It also tells the story of the Wright brothers airplane monopoly the Colt revolver's role in the Mexican American War the Sewing Machine wars the last six months of Daniel Webster's life and the fraudulently created Bell Empire
