Backwoods America:

Backwoods America Charles Morrow Wilson, 1970 *The Nation*, 1930 What Is America? Ronald Wright, 2009-02-24 From the award winning 1 bestselling author of *A Short History of Progress* comes another surprising frightening and essential book *The USA is now the world's lone superpower whose deeds could make or break this century For better and worse America has Americanized the world How did a marginal frontier society in a mere two centuries become the de facto ruler of the world Why do America's great achievements in democracy prosperity and civil rights now seem threatened by forces within itself Brimming with insight into history and human behaviour and written in Wright's captivating style What Is America shows how this came to pass how the United States which regards itself as the most modern country on earth is also deeply archaic a stronghold not only of religious fundamentalism but of modern beliefs in limitless progress and a universal mission that have fallen under suspicion elsewhere in the west a rethinking driven by two World Wars and the reckless looting of our planet A fresh passionate look at the past and future of the world's most powerful nation What Is America will reframe the debate about our neighbour and ourselves*

Chauvinism of the West Shadia B. Drury, 2024-09-27 This book is a critical exploration of the intellectual foundations of American foreign policy on the left and the right The left is inspired by Immanuel Kant's idea that spreading democracy is the key to universal peace The right is inspired by the realism of Thucydides Leo Strauss and Carl Schmitt The emphasis is on military power as a sign of superiority and a means to survival For the right spreading democracy is merely a ploy for building a global commercial empire to rival the British Drury gives reasons for rejecting both as manifestations of the chauvinism of the West
