Access to books is key to learning to read and sustaining a love of reading Yet many low and middle income countries struggle to provide their students with reading materials of sufficient quality and quantity Since 2008 RTI International has provided technical assistance in early reading assessment and instruction to ministries of education in dozens of low and middle income countries The central objective of many of these programs has been to improve learning outcomes in particular reading for students in the early grades of primary school Under these programs RTI has partnered with ministry staff to produce and distribute evidence based instructional materials at a regional or national scale in quantities that increase the likelihood that children will have ample opportunities to practice reading skills and at a cost that can be sustained in the long term by the education system In this paper we seek to capture the practices RTI has developed and refined over the last decade particularly in response to the challenges inherent in contexts with high linguistic diversity and low operational capacity for producing and distributing instructional materials These practices constitute our approach to developing and producing instructional materials for early grade literacy We also touch upon effective planning for printing and distribution procurement but we do not consider the printing and distribution processes in depth in this paper We expect this volume will be useful for donors policymakers and practitioners interested in improving access to cost effective high quality teaching and learning materials for the early grades Educational Screen and Audiovisual Guide ,1922 *El-Hi Textbooks and Serials in Print, 1996* R R Bowker Publishing,Bowker,1996-02 *The Textbook* Alfred Lawrence Hall-Quest,1920 Early Childhood Curriculum Resource Handbook ,1993 **The Educational Screen** ,1924 The Text-book Alfred Lawrence Hall-Quest,1918 **The Story of America : Beginnings to 1877: Volume 1** John Arthur Garraty,1992 The Story of America tells our story because it is important in itself It is a great epic and the unique tale of how
