Behind The Mexican Mountains:

Behind the Mexican Mountains Robert Zingg, 2010-07-22 In 1930 anthropologists Robert Zingg and Wendell Bennett spent nine months among the Tarahumara of Chihuahua Mexico one of the least acculturated indigenous societies in North America Their fieldwork resulted in *The Tarahumara An Indian Tribe of Northern Mexico* 1935 a classic ethnography still familiar to anthropologists In addition to this formal work Zingg also penned a personal unvarnished travelogue of his sojourn among the Tarahumara Unpublished in his lifetime *Behind the Mexican Mountains* is now available in print for the first time This colorful account provides a compelling description of the landscape people traditions language and archaeology of the Tarahumara region Abandoning the scientific detachment of the observer Zingg frankly records his reactions to the people and their customs as he vividly evokes the daily experience of doing fieldwork In the introduction Howard Campbell examines Zingg s writing in light of current critiques of anthropology as literature He makes a strong case that although earlier anthropological writing reveals unacceptable cultural biases it also demonstrates the ongoing importance and vitality of field research

Behind the Mexican Mountains Robert Zingg, 2001-12-15 **The Silver of the Sierra Madre** John Mason Hart, 2022-07-12 In the great barranca known today as Copper Canyon the small mining town of Batopilas once experienced a silver bonanza among the largest ever known American investors believing that Mexico offered an unexploited cornucopia began purchasing mines in the Sierra Madre seeking to expand their hold on natural resources outside U S borders From 1861 until the Revolution of 1910 the men of the Batopilas Mining Company ruled the region using their wealth armed might and extensive connections The technology industrialism and politics their interests brought to this remote community tied the Tarahumara Yaqui Mayo and other peoples of the barrancas directly to the economies of the United States and China Local society was revolutionized and a dramatic tapestry of human interactions was created Based on many volumes of mining company records *The Silver of the Sierra Madre* exposes the mentality and methods of mine owners John Robinson and Alexander Boss Shepherd vividly detailing their exploitation of the people and the natural resources of Chihuahua Hart aptly demonstrates the human and financial losses resulting from President Porfirio D az s development programs which relied on foreign investors foreign managers and foreign technology This unprecedented work also provides a highly interesting ethnographic and social description of one of the least known areas of Mexico It is a tale of power and desperation respect and arrogance adventure and tragedy and ultimately triumph and survival
