Beaglehole, 2017-07-05 Captain James Cook s first two voyages of exploration in 1768 71 and 1772 75 had drawn the modern map of the South Pacific Ocean and had opened the door on the discovery of Antarctica These expeditions were the subject of Volumes I and II of Dr J C Beaglehole s edition of Cook s Journals The third voyage on which Cook sailed in 1776 was directed to the Northern Hemisphere Its objective was the discovery of a Northern Passage by sea from the Pacific to the Atlantic Ocean the North west Passage sought since the 16th century which would have transformed the pattern of world trade The search was to take Cook into high latitudes where as in the Antarctic his skill in ice navigation was tested Sailing north from Tahiti in 1778 Cook made the first recorded discovery of the Hawaiian Islands On March 7 he sighted the Oregon coast in 44 N The remarkable voyage which he made northward along the Canadian and Alaskan coasts and through Bering Strait to his farthest north in 70 nearly disproved the existence of a navigable passage towards the Atlantic and produced charts of impressive accuracy Returning to Hawaii to refit Cook met his death in a clash with the natives as tragic as it seems unnecessary Dr Beaglehole discusses with sympathy and insight the tensions which led Cook by then a tired man into miscalculations alien to his own nature and habits The volume and vitality of the records both textual and graphic for this voyage surpass those even for Cook s second voyage The surgeons William Anderson and David Samwell both admirable observers left journals which are also here printed in full for the first time The documentation is completed as in the previous volumes by appendixes of documents and correspondence and by reproductions of original drawings and paintings mainly by John Webber the artist of the expedition In Dr Beaglehole s words no one can study attentively the records of Cook s third

[The Journal of Agriculture Cook Book](#) ,1894 **Captain James Cook and the Search for Antarctica** James C Hamilton,2020-05-30 Two hundred and fifty years ago Captain James Cook during his extraordinary voyages of navigation and maritime exploration searched for Antarctica the Unknown Southern Continent During parts of his

three voyages in the southern Pacific and Southern Oceans Cook narrowed the options for the location of Antarctica Over three summers he completed a circumnavigation of portions of the Southern Continent encountering impenetrable barriers of ice and he suggested the continent existed a frozen land not populated by a living soul Yet his Antarctic voyages are perhaps the least studied of all his remarkable travels That is why James Hamilton s gripping and scholarly study which brings together the stories of Cook s Antarctic journeys into a single volume is such an original and timely addition to the literature on Cook and eighteenth century exploration Using Cook s journals and the log books of officers who sailed with him the book sets his Antarctic explorations within the context of his historic voyages The main focus is on the Second Voyage 1772 1775 but brief episodes in the First Voyage during 1769 and the Third Voyage 1776 are part of the story Throughout the narrative Cook s exceptional seamanship and navigational skills and that of his crew are displayed during often difficult passages in foul weather across uncharted and inhospitable seas Captain James Cook and the Search for Antarctica offers the reader a fascinating insight into Cook the seaman and explorer and it will be essential reading for anyone who has a particular interest the history of the Southern Continent *Captain James Cook* Richard Hough,1995 This meticulous narrative captures an age of discovery and establishes Cook as a link between the vague scientific speculations of the 18th century and the industrial revolution to come Includes an interesting new element is medical evidence that may explain Cook s strange behavior on his final voyage **A Cook's Journal Vintage** T. three of Captain James Cook's most glorious expeditions starting in 1768 and leading to Cook's tragic death in 1779. Having ventured all over the Pacific, Cook encountered lands not yet charted by the British. Though his discoveries and maps inadvertently led to British colonization, Cook held a deep respect for the native people he encountered. He recorded their practices and wrote of them fondly. Cook even befriended some of the native people he encountered, including a Tahitian man who, after hearing of Cook's homeland, wanted to visit it as well. Per the man's request, Cook sailed him to Britain, where the man stayed until he and Cook sailed back to Tahiti three years later. After charting Australia and the whole coast of New Zealand, Cook was involved in a plot to kidnap a Hawaiian monarch and ransom them in order to recover stolen property. He was killed during this expedition, leaving behind a legacy of a detailed description of the Pacific Ocean and its coasts. James Cook's expeditions around the world and his detailed and innovative work as a cartographer inspired advancements in scientific, medical, historical, and geological fields. His influence has also reached the literary world, inspiring novel series and characters, including the infamous Captain Hook. Exuding ambition, courage, and confidence, *The Journals of James Cook* provide a privileged peak into the travels and accomplishments of an adventurous and invaluable man. Packed with wonder but free of imperialistic arrogance, *The Journals of James Cook* serve as a valuable and intriguing primary source of a time when places in the world were yet to be mapped. Now presented in an easy-to-read font and redesigned with a stunning new cover, *James Cook: The Journals of James Cook* is accommodating to contemporary readers, providing a fresh version of the esteemed literary work while preserving its wonders and adventures.

Captain Cook's Journal During His First Voyage Round the World. James Cook, 2018-05-21. Captain James Cook (7 November 1728 – 14 February 1779) was a British explorer, navigator, cartographer, and captain in the Royal Navy. Cook made detailed maps of Newfoundland prior to making three voyages to the Pacific Ocean, during which he achieved the first recorded European contact with the eastern coastlines of Australia and the Hawaiian Islands, and the first recorded circumnavigation of New Zealand. Cook joined the British merchant navy as a teenager and joined the Royal Navy in 1755. He saw action in the Seven Years War and subsequently surveyed and mapped much of the entrance to the Saint Lawrence River during the siege of Quebec. This helped bring Cook to the attention of the Admiralty and Royal Society. This notice came at a crucial moment in both Cook's career and the direction of British overseas exploration and led to his commission in 1766 as commander of HM Bark *Endeavour* for the first of three Pacific voyages. In three voyages, Cook sailed thousands of miles across largely uncharted areas of the globe. He mapped lands from New Zealand to Hawaii in the Pacific Ocean in greater detail and on a scale not previously achieved. As he progressed on his voyages of discovery, he surveyed and named features and recorded islands and coastlines on European maps for the first time. He displayed a combination of seamanship, superior surveying and cartographic skills, physical courage, and an ability to lead men in adverse conditions.
