Tempting Disaster John Edward Lawson, 2005 This anthology from the fringe examines our culture's obsession with taboos and the added temptation that forbidden pleasures bring Warnings of danger and peril only heighten our desire for those things we have been told are bad wrong and have been warned against doing Postmodernists and surrealists come together in these pages with renegade horror and sci fiction authors to re envision what is acceptable By turns humorous and horrific then shocking and alluring the authors dissect those very impulses we deny in our everyday lives While navigating the minefield of gender relations and plotting explorations into the landscape of the other this volume is all inclusive in scope It allows for every lifestyle and viewpoint no matter how unlikely or bizarre This literary experiment on human desire opens up many possibilities including the chance that the ultimate disaster might very well prove to be the most compelling temptation

**An Inch or Two of Time** Jordan D. Finkin, 2015-06-22 In literary modernism time and space are sometimes transformed from organizational categories into aesthetic objects a transformation that can open dramatic metaphorical and creative possibilities In An Inch or Two of Time Jordan Finkin shows how Jewish modernists of the early twentieth century had a distinct perspective on this innovative metaphorical vocabulary As members of a national ethnic religious community long

denied the rights and privileges of self determination with a dramatically internalized sense of exile and landlessness the Jewish writers at the core of this investigation reimagined their spatial and temporal orientation and embeddedness They set as the fulcrum of their imagery the metaphorical power of time and space Where non Jewish writers might tend to view space as a given an element of their own sense of belonging to a nation at home in a given territory the Jewish writers discussed here spatialized time they created an as if space out of time out of history They understood their writing to function as a kind of organ of perception on its own Jewish literature thus presents a particularly dynamic system for working out the implications of that understanding and as such this book argues it is an indispensable part of the modern library
