Research Libraries,1979 Existentialism and Phenomenology Leonard Orr,1978 The compiling of a bibliography requires both a thorough knowledge of the subject and the ability to discriminate effectively Success depends as much on the clear definition of focus as on the evaluation of the texts considered Orr succeeds on each count thereby rendering an invaluable service to students and scholars alike Particularly interesting is the inclusion of works devoted to the interrelatedness of existentialism and the political and social sciences And extremely helpful are the notations referring the researcher to sections of a work either of particular significance or pertinent to a specific point of view An excellent introduction emphasizes the movement away from the fundamental ontological concerns of existential thought Orr s effort to resituate the research within the original dimensions of existentialism and phenomenology as exploratory processes as opposed to intellectual systems is most commendable FRENCH REVIEW **Journal of Existential Psychiatry** ,1963
