Stromquist, Karen Monkman, 2000-09-06 The effects of globalization have long been dealt with in terms of economic and technological consequences but what about the influence on education Though still not a precise concept what we understand as OglobalizationO is bringing forth numerous and profound changes in the economic cultural and political life of nations With increased opportunities for interaction and learning education around the world is rapidly becoming transformed The essays contained in this comprehensive yet readable book strive to provide a thorough examination of the

impact these changes are having on how education is defined whom it serves and how it is assessed around the world Globalization and Education is organized into three sections The first addresses conceptual and theoretical issues underlying such notions as globalization internationalization and multilateralism The second presents empirical data from various countries and provides examples of shifts and transformations within a specific level or modality of the educational system The third looks at the totality of educational changes taking the nation as the unit of analysis
