A Critique Of Linguistic Philosophy:

A Critique of Linguistic Philosophy with Second Thoughts C. W. K. Mundle, 1979 Professor Mundle's authoritative and acclaimed critique of a way of thinking which still shapes the style of Anglo Saxon philosophy is here presented in a revised text with a new postscript Mundle shows how Austin Ryle and Wittgenstein among others not only committed grammatical and logical errors akin to those they themselves detected in others but misunderstood the relations between grammar and philosophy Professor P L Heath contributes a new foreword and Mundle himself answers his opponents in a subtly provocative manner

Clarity Is Not Enough H. D. Lewis, 2016-08-12 This book originally published in 1963 provides a sample of the criticisms of philosophers on the course of linguistic philosophy A chronological order is followed with work ranging from that of traditionalist thinkers to second thoughts about linguistic philosophy on the part of writers who have been influenced by the movement

A Critique of Linguistic Philosophy C. W. K. Mundle, 1979

Why Does Language Matter to Philosophy? Ian Hacking, 1975-09-26 Many people find themselves dissatisfied with recent linguistic philosophy and yet know that language has always mattered deeply to philosophy and must in some sense continue to do so Ian Hacking considers here some dozen case studies in the history of philosophy to show the different ways in which language has been important and the consequences for the development of the subject There are chapters on among others Hobbes Berkeley Russell Ayer Wittgenstein Chomsky Feyerabend and Davidson Dr Hacking ends by speculating about the directions in which philosophy and the study of language seem likely to go The book will provide students with a stimulating broad survey of problems in the theory of meaning and the development of philosophy particularly in this century The topics treated in the philosophy of language are among the central current concerns of philosophers and the historical framework makes it possible to introduce concretely and intelligibly all the main theoretical issues

Harris,2017-01-31 As hopes that generative linguistics might solve philosophical problems about the mind give way to disillusionment old problems concerning the relationship between linguistics and philosophy survive unresolved This collection surveys the historical engagement between the two and opens up avenues for further reflection In Part 1 two contrasting views are presented of the interface nowadays called philosophy of linguistics Part 2 gives a detailed historical survey of the engagement of analytic philosophy with linguistic problems during the present century and sees the imposition by philosophers of an exploratory model of thinking as a major challenge to the discipline of linguistics Part 3 poses the problem of whether linguistics is dedicated to describing independently existing linguistic structures or to imposing its own structures on linguistic phenomena In Part 4 Harris points out some similarities in the way an eminent linguist and an eminent philosopher invoke the analogy between languages and games while Taylor analyses the rationale of our metalinguistic claims and their relationship to linguistic theorizing Providing a wide range of views and ideas this book will be of interest to all those interested and involved in the interface of philosophy and linguistics

Language and World Richard Gaskin,2020-07-06 This book defends a version of linguistic idealism the thesis that the world is a product of language In the course of defending this radical thesis Gaskin addresses a wide range of topics in contemporary metaphysics philosophy of language philosophical logic and syntax theory Starting from the context and compositionality principles and the idea of a systematic theory of meaning in the Tarski Davidson tradition Gaskin argues that the sentence is the primary unit of linguistic meaning and that the main aspects of meaning sense and reference are themselves theoretical posits Ontology which is correlative with reference emerges as language driven This linguistic idealism is combined with a realism that accepts the objectivity of science and it is accordingly distinguished from empirical pragmatism Gaskin contends that there is a basic metaphysical level at which everything is expressible in language but the vindication of linguistic idealism is nuanced inasmuch as there is also a derived level asymmetrically dependant on the basic level at which reality can break free of language and reach into the realms of the unnameable and indescribable Language and World will be of interest to scholars and advanced students working in metaphysics philosophy of language and linguistics *The Language of Criticism* John Casey,1966 Discusses the place of emotion in our response to works of art the objectivity of critical judgements and the relations between literature and morality **A Marxist Philosophy of Language** Jean-Jacques Lecercle,2006-08-01 The purpose of this book is to give a precise meaning to the formula English is the language of imperialism Understanding that statement involves a critique of the dominant views of language both in the field of linguistics the book has a chapter criticising Chomsky s research programme and of the philosophy of language the book has a chapter assessing Habermas s philosophy of communicative action The book aims at constructing a Marxist philosophy of language embodying a view of language as a social historical material and political phenomenon Since there has never been a strong tradition of thinking about language in Marxism the book provides an overview of the question of Marxism in language from Stalin s pamphlet to Voloshinov s book taking in an essay by Pasolini and it seeks to construct a number of concepts for a Marxist philosophy of language The book belongs to the tradition of Marxist critique of dominant ideologies It should be particularly useful to those who in the fields of language study literature and communication studies have decided that language is not merely an instrument of communication The Idea of God and Moral Sense in the Light of Language Herbert Baynes,1895 Journal of the School of Languages, Jawaharlal Nehru University Jawaharlal Nehru University.
