A Darwinian Left Politics Evolution And Cooperation:

A Darwinian Left Peter Singer, 2000-03-11 In this ground breaking book a renowned bioethicist argues that the political left must radically revise its outdated view of human nature He shows how the insights of modern evolutionary theory particularly on the evolution of cooperation can help the left attain its social and political goals Singer explains why the left originally rejected Darwinian thought and why these reasons are no longer viable He discusses how twentieth century thinking has transformed our understanding of Darwinian evolution showing that it is compatible with cooperation as well as competition and that the left can draw on this modern understanding to foster cooperation for socially desirable ends A Darwinian left says Singer would still be on the side of the weak poor and oppressed but it would have a better understanding of what social and economic changes would really work to benefit them It would also work toward a higher moral status for nonhuman animals and a less anthropocentric view of our dominance over nature *Rethinking Peter Singer* Gordon R. Preece, 2002-01-01 Who is Peter Singer What does he say about issues like abortion infanticide euthanasia and animal rights What does he say about Christianity What exactly is his philosophy Peter Singer is probably the world s most famous or infamous contemporary philosopher says Gordon Preece Recently appointed as professor of bioethics at Princeton University s Center for Human Values Singer is best known for his book on animal rights *Animal Liberation* and for his philosophical text *Practical Ethics* But underneath his seemingly benign agenda lies perhaps the most radical challenge to Christian ethics proposed in recent times In *Rethinking Peter Singer* four of Singer s contemporaries fellow Australian scholars Gordon Preece Graham Cole Lindsay Wilson and Andrew Sloane grapple with Singer s views respectfully but incisively From a straightforwardly Christian perspective they critique Singer s thought in four major areas abortion and infanticide euthanasia animal rights and Christianity *Rethinking Peter Singer* is not only for those who want to understand Singer s views but also for all who want to challenge the thinking that more and more informs our society s stance on moral issues Philosophy after Darwin Michael Ruse, 2021-06-08 Wittgenstein famously remarked in 1923 Darwin s theory has no more relevance for philosophy than any other hypothesis in natural science Yet today we are witnessing a major revival of interest in applying evolutionary approaches to philosophical problems *Philosophy after Darwin* is an anthology of essential writings covering the most influential ideas about the philosophical implications of Darwinism from the publication of *On the Origin of Species* to today s cutting edge research Michael Ruse presents writings by leading modern thinkers and researchers including some writings never before published together with the most important historical documents on Darwinism and philosophy starting with Darwin himself Included here are Herbert Spencer Friedrich Nietzsche Thomas Henry Huxley G E Moore John Dewey Konrad Lorenz Stephen Toulmin Karl Popper Edward O Wilson Hilary Putnam Philip Kitcher Elliott Sober and Peter Singer Readers will encounter some of the staunchest critics of the evolutionary approach such as Alvin Plantinga as well as revealing excerpts from works like Jack London s *The Call of the Wild* Ruse s

comprehensive general introduction and insightful section introductions put these writings in context and explain how they relate to such fields as epistemology philosophy of mind philosophy of language and ethics An invaluable anthology and sourcebook Philosophy after Darwin traces philosophy's complicated relationship with Darwin's dangerous idea and shows how this relationship reflects a broad movement toward a secular more naturalistic understanding of the human experience

Narrative Humanism Moss-Wellington Wyatt Moss-Wellington,2019-09-13 This book attempts to clarify the narrative conditions of humanism asking how we can use stories to complicate our understanding of others and questioning the ethics and efficacy of attempts to represent human social complexity in fiction With case studies of films like Parenthood 1989 American Beauty 1999 Little Miss Sunshine 2006 and The Kids Are All Right 2010 this original study synthesises leading discourses on media and cognition evolutionary anthropology literature and film analysis into a new theory of the storytelling instinct
