would concern the reader little, perhaps, to know how sorrowfully the pen is laid down at the close of a two-year imaginative task, or how an author feels as if he were dismissing some portion of himself into the shadowy world when a crowd of the creatures of his brain are going from him for ever. Yet I had nothing else to tell, unless indeed I were to confess, which might be of less moment still, that no one can ever believe this narrative in the reading more than I.
