**Concise Dictionary of Islamic Terms English Arabic** M Qazi,1979-01-01      **Concise Dictionary of Islamic Terms** ,1991-05      Islam Translated Ronit Ricci,2011-05-01 The spread of Islam eastward into South and Southeast Asia was one of the most significant cultural shifts in world history As it expanded into these regions Islam was received by cultures vastly different from those in the Middle East incorporating them into a diverse global community that stretched from India to the Philippines In *Islam Translated* Ronit Ricci uses the *Book of One Thousand Questions* from its Arabic original to its adaptations into the Javanese Malay and Tamil languages between the sixteenth and twentieth centuries as a means to consider connections that linked Muslims across divides of distance and culture Examining the circulation of this Islamic text and its varied literary forms Ricci explores how processes of literary translation and religious conversion were historically interconnected forms of globalization mutually dependent and creatively reformulated within societies making the transition to Islam      The Higher Objectives of Islamic Theology Mohammed Gamal Abdelnour,2022 In *The Higher Objectives of Islamic Theology* Mohammed Gamal Abdelnour introduces a new field of inquiry to the Islamic tradition by basing it on a scheme of core values Truth Justice Beauty instead of a scheme of hudud penalties arguing that the tradition s current overemphasis on law justice has relegated both theology truth and Sufism beauty to the periphery of the tradition      *World Dictionaries in Print 1983* ,1983      **A Comparative History of Catholic and Ař'arī Theologies of Truth and Salvation** Mohammed Gamal Abdelnour,2021-05-25 In *A Comparative History of Catholic and A ar Theologies of Truth and Salvation* Mohammed Gamal Abdelnour analytically and critically compares the historical development of the Catholic theologies of truth and salvation with those of its Islamic counterpart A arism The monograph moves the discussion from individual theologians to theological schools with a view to helping consolidate the young field of Comparative Theology It serves two types of readers First the specialist who wants to dig deeper into the two traditions parallely Second the generalist who may not have the time to become thoroughly familiar with every aspect of Christian Muslim theologies Both readers will come out with a holistic understanding of the development of Christian and Muslim theologies of truth and salvation a holistic understanding that increases the appetite of the former and quenches that of the latter Despite the holistic nature of the monograph attention is duly paid to the specificities of each tradition in a deep and profound manner      *Yambo Ouologuem* Christopher Wise,1999 The first three parts of the book constitute an essential source for study of the reception of *Ouologuem* It is however the concluding accounts of Wise s own research in the field which make this volume indispensable for future discussion of *Ouologuem* and open the path for innovative in vivo research into African writing George Lang *Research in African Literatures* A wealth of well documented information on literary historical philosophical and mundane

aspects of Ousmane Sembène's work Robert P. Smith Jr World Literature Today Wise provides today's postcolonial and African scholars with enough intellectual considerations to inspire a host of new essays, articles, presentations, and lectures Glen Bush African Studies Review Wise renders an important service by bringing together a dozen articles and several recent interviews on the work of this Malian West African francophone Recommended for all college and university collections supporting studies of African, African American, and postcolonial literature Choice From the appearance of Bound to Violence in the late 1960s Yambo Ousmane has been one of Africa's most controversial writers For some critics the young Malian signaled an entire new direction for African letters, a fiercely courageous postindependence literature For others his novel revealed too much, bringing to light horrors many preferred to ignore Today Ousmane is credited with delivering the final death blow to Senghorian negritude, thus clearing the way for a more honest literature divested of the longing for a false African past This book gathers the most important essays on Ousmane from critics on three continents Wise also includes his recent interviews with the reclusive author and a companion essay on Ousmane's present life among the Tidjaniya Muslims of northern Mali

**Muslim Schools, Communities and Critical Race Theory** Damian Breen, 2017-10-18 This book explores the position of Muslim schools in contemporary Britain. A Critical Race Theory approach is used to consider some of the specific issues faced by Muslim schools, in particular those looking to become state-funded. The book provides a critically considered and meaningful application of a theory of race to Muslims as a religious community, without restricting the analysis to minority ethnic Muslim groups; it also provides a counter-narrative which contests assumptions about Muslim schools presented in the media and in public debates more generally. These insights are positioned against current political climates within which Muslims have been consistently subjected to surveillance and suspicion. The book draws on first-hand research carried out inside Muslim schools to offer insights into the ways that these schools cater to diverse and locally specific needs. It concludes by arguing that independent Islamic schools represent ideal models of community need. Therefore, bringing such schools into the state sector in a way that allows them to retain autonomy represents an ideal strategy for the educational and political enfranchisement of British Muslims. Muslim schooling represents an opportunity for increased state investment in Muslim interests as a strategy for offsetting the ways in which Muslim communities have been marginalised more generally in contemporary political climates. The book will make compelling reading for students and researchers in the fields of Education, Sociology, and Religious Studies, particularly those with an interest in faith schools, Islam, and Critical Race Theory

**Administrative Development** Muhammad A. Al-Buraey, 2013-12-19 First published in 1986. The main purpose of this work is to present a developmental perspective different from the prevailing Western one. The author hopes that this point of view will contribute towards the goal of developing a general theory of world development of human societies that presently does not exist. Though the focus of this study is on Islamic views of administrative development, other aspects of development such as the political and socio-economic are also discussed
