A Dangerous Passion:

A Dangerous Passion Haig Patapan, 2021-05-01 *A Dangerous Passion* argues that leadership and honor are mutually constitutive and that this dynamic relationship fundamentally shapes the character of political practice Haig Patapan shows how our contemporary blindness to this leadership honor dynamic and neglect of the significance of honor and shame in modern politics have caused us to fundamentally misunderstand the nature of leadership We have lost sight of how honor shapes the ambitions and aspirations of those who seek political office and the opportunities and limits it imposes on leaders when engaging with their followers What has been obscured are the two faces of honor how it is the dangerous passion that fuels the ambitions of the glory seekers to pursue tyranny and empire as well as being the source of good leadership that is founded on noble ambition and sacrifice for the common good Patapan examines classical magnanimity Machiavellian glory and Hobbesian dispersed leadership views that continue to be debated and then offers insights from these debates to illuminate a series of contemporary political challenges for leaders including the politics of fame identity and nationalism

The Dangerous Passion David M. Buss, 2000-02-14 Why do men and women cheat on each other How do men really feel when their partners have sex with other men What worries women more men who turn to other women for love or men who simply want sexual variety in their lives Can the jealousy husbands and wives experience over real or imagined infidelities be cured Should it be In this surprising and engaging exploration of men's and women's darker passions David Buss acclaimed author of *The Evolution of Desire* reveals that both men and women are actually designed for jealousy Drawing on experiments surveys and interviews conducted in thirty seven countries on six continents as well as insights from recent discoveries in biology anthropology and psychology Buss discovers that the evolutionary origins of our sexual desires still shape our passions today According to Buss more men than women want to have sex with multiple partners Furthermore women who cheat on their husbands do so when they are most likely to conceive but have sex with their spouses when they are least likely to conceive These findings show that evolutionary tendencies to acquire better genes through different partners still lurk beneath modern sexual behavior To counteract these desires to stray and to strengthen the bonds between partners jealousy evolved as an early detection system of infidelity in the ancient and mysterious ritual of mating Buss takes us on a fascinating journey through many cultures from pre historic to the present to show the profound evolutionary effect jealousy has had on all of us Only with a healthy balance of jealousy and trust can we be certain of a mate's commitment devotion and true love
