A Daughters Geography

Sir William Smith

A Daughters Geography:

A Daughter's Geography Ntozake Shange, 1983 The noted poet playwright and novelist offers a collection of intensely personal poems intended to map out the geography of life and beauty that she would declare for her daughter A *Daughter's Geography* , **Faulkner's Geographies** Jay Watson, Ann J. Abadie, 2015-06-25 The recent spatial turn in social theory and cultural studies opens up exciting new possibilities for the study of William Faulkner's literature The fictional domains of Yoknapatawpha County and Jefferson Mississippi are not simply imagined communities but imaginative geographies of remarkable complexity and detail as evidenced by the maps Faulkner created of his apocryphal county Exploring the diverse functions of space in Faulkner's artistic vision the eleven essays in Faulkner's Geographies delve deep into Yoknapatawpha but also reach beyond it to uncover unsuspected connections and flows linking local regional national hemispheric and global geographies in Faulkner's writings Individual contributions examine the influence of the plantation as a land use regime on Faulkner's imagination of north Mississippi's geography the emergence of micro Souths as a product of modern migratory patterns in the urban North of Faulkner's fiction the enlistment of the author's work in the geopolitics of the cultural Cold War during the 1950s the historical and literary affiliations between Faulkner's Deep South and Greater Mexico the local and idiosyncratic as alternatives to region and nation the unique intersection of regional and metropolitan geographies that Faulkner encountered as a novice writer immersed in the literary culture of New Orleans the uses of feminist geography to trace the interplay of gender space and movement and the circulation of Caribbean and Black South spaces and itineraries through Faulkner's masterpiece Absalom Absalom By bringing new attention to the function of space place mapping and movement in his literature Faulkner's Geographies seeks to redraw the very boundaries of Faulkner studies **The Poetics of Difference** Mecca Jamilah Sullivan, 2021-10-19 Winner of the Modern Language Association MLA's William Sanders Scarborough Prize From Audre Lorde Ntozake Shange and Bessie Head to Zanele Muholi Suzan Lori Parks and Missy Elliott Black women writers and artists across the African Diaspora have developed nuanced and complex creative forms Mecca Jamilah Sullivan ventures into the unexplored spaces of black women's queer creative theorizing to learn its languages and read the textures of its forms Moving beyond fixed notions Sullivan points to a space of queer imagination where black women invent new languages spaces and genres to speak the many names of difference Black women's literary cultures have long theorized the complexities surrounding nation and class the indeterminacy of gender and race and the multiple meanings of sexuality Yet their ideas and work remain obscure in the face of indifference from Western scholarship Innovative and timely *The Poetics of Difference* illuminates understudied queer contours of black women's writing **The African Presence and Influence on the Cultures of the Americas** Brenda M. Greene, 2010-05-11 *The African Presence and Influence on the Cultures of the Americas* an interdisciplinary collection of essays by scholars and writers whose disciplines include but are not limited to literature languages linguistics history sociology and psychology

reflects the complexity and diversity of the historical and cultural legacy of the African diasporic reality and provides a critical perspective for examining the persistence of African cultural traditions in the Americas. These writers and scholars explore the ways in which people connected by moments in history and the common legacies of racism, classism, colonialism, and imperialism have used literature, music, dance, religion, and cultural rites and rituals to survive and resist. The poetry and prose of Afro-Cuban icon Nicolás Guillén and Afro-American literary legend Gwendolyn Brooks provide a context for exploring these themes. Guillén and Brooks symbolize the triumph of the human spirit, and the Africanisms present amongst people who share a common legacy originating in Africa. Building on the themes in the work of these poets, the scholars and writers in *The African Presence and Influence on the Cultures of the Americas* examine the nature, persistence, and impact of these themes in literature, language, music, dance, and religion. The scholarship generated in this collection has implications for the ways in which we read, study, and teach cultural studies, literature, history, language, African American Studies, Caribbean Studies, and Africana Studies.

The A to Z of African American Theater Anthony D. Hill, Douglas Q. Barnett, 2009-09-02 African American Theater is a vibrant and unique entity enriched by ancient Egyptian rituals, West African folklore, and European theatrical practices. A continuum of African folk traditions, it combines storytelling, mythology, rituals, music, song, and dance with ancestor worship from ancient times to the present. It afforded black artists a cultural gold mine to celebrate what it was like to be an African American in The New World. *The A to Z of African American Theater* celebrates nearly 200 years of black theater in the United States, identifying representative African American theater producing organizations and chronicling their contributions to the field from its birth in 1816 to the present. They Also Write for Kids Suzanne Manizza Roszak, 2022-12-28 Outside the world of children's literature studies, children's books by authors of well-known texts for adults are often forgotten or marginalized.

Although many adults today read contemporary children's and young adult fiction for pleasure others continue to see such texts as unsuitable for older audiences and they are unlikely to cross read children's books that were themselves cross written by authors like Chinua Achebe Anita Desai Joy Harjo or Amy Tan Meanwhile these literary voices have produced politically vital works of children's literature whose complex themes persist across boundaries of expected audience These works form part of a larger body of activist writing for children that has long challenged preconceived notions about the seriousness of such books and ideas about who in fact should read them They Also Write for Kids Cross Writing Activism and Children's Literature seeks to draw these cross writing projects together and bring them to the attention of readers In doing so this book invites readers to place children's literature in conversation with works more typically understood as being for adult audiences read multiethnic US literature alongside texts by global writers consider children's poetry and nonfiction as well as fiction and read diachronically as well as cross culturally These ways of reading offer points of entry into a world of books that refuse to exclude young audiences in scrutinizing topics that range from US settler colonialism and linguistic prejudice to intersectional forms of gender inequality The authors included here also employ an intricate array of writing strategies that challenge lingering stereotypes of children's literature as artistically as well as intellectually simplistic They subversively repurpose tropes and conventions from canonical children's books embrace an epistemology of children's literature that emphasizes ambiguity and complexity invite readers to participate in redefining concepts such as civilization and cultural belonging engage in intricate acts of cross cultural representation and re envision their own earlier works in new forms tailored explicitly to younger audiences Too often disregarded by skeptical adults these texts offer rich rewards to readers of all ages and here they are brought to the fore
