Data Analysis in Plain English with Microsoft Excel Harvey J. Brightman, 1999 Harvey Brightman's accessible easy to understand new book focuses on helping readers learn essential statistical concepts and data analysis in an intuitive and non-mathematical writing style. Brightman uses actual business applications and covers practical insights in business problem solving using Microsoft Excel as the primary computational tool. His clear to the point presentation gives students a map for learning what data analysis techniques to use and when to use them. Brightman presents descriptive and inferential methods in sequential chapters and introduces probability only as needed and then only on a very limited basis.
