The Manor: Three Centuries at a Slave Plantation on Long Island Mac Griswold,2013-07-02 In 1984 the landscape historian Mac Griswold was rowing along a Long Island creek when she came upon a stately yellow house and a garden guarded by looming boxwoods She instantly knew that boxwoods that large twelve feet tall fifteen feet wide had to be hundreds of years old So as it happened was the house Sylvester Manor had been held in the same family for eleven generations Formerly encompassing all of Shelter Island a pearl of 8 000 acres caught between the North and South Forks of Long Island the manor had dwindled to 243 acres Still its hidden vault proved to be full of revelations and treasures including the 1666 charter for the land and correspondence from Thomas Jefferson Most notable was the short and steep flight of steps the family had called the slave staircase which would provide clues to the extensive but little known story of Northern slavery Alongside a team of archaeologists Griswold began a dig that would uncover a landscape bursting with stories Based on years of archival and field research as well as voyages to Africa the West Indies and Europe The Manor is at once an investigation into forgotten lives and a sweeping drama that captures our history in all its richness and suffering **The**
